this collection compiles essays by medievalist scholars that examine the variety of ways authors have fictionalized the medieval period while meeting the challenge of creating engaging literature more significantly this project seeks to explore the importance of authenticity in these works of medievalism the works discussed represent a variety of genres including historical young adult arthurian detective fiction paranormal romance and fantasy as well as adaptations of beowulf and chaucer s canterbury tales opening the collection are three essays by author scholars who share their processes of creating an authentic medieval world appealing to a wide audience the remaining seven essays by medievalist scholars examine a variety of medievalist texts addressing the extent to which their authors adhere to the facts of the period while at times necessarily filling in historical gaps in the process of creating these works each of the essays addresses the concept of authenticity in fiction about the middle ages together they become a lively conversation about authenticity in narratives of various genres

combining elements of medievalism the historical novel and the detective narrative medieval crime fiction capitalizes upon the appeal of all three the most famous examples being umberto eco s the name of the rose one of the best selling books ever published and ellis peters endearing brother cadfael series hundreds of other novels and series fill out the genre in settings ranging from the so called celtic enlightenment in seventh century ireland to the ruthless inquisition in fourteenth century france to the mean streets of medieval london the detectives are an eclectic group including weary ex crusaders former knights templar enterprising monks and nuns and historical poets such as geoffrey chaucer this book investigates the enduring popularity of the largely unexamined genre and explores its social cultural and political contexts

essays using feminist approaches to offer fresh insights into aspects of the texts and the material culture of the middle ages feminist discourses have called into question axiomatic world views and shown how gender and sexuality inevitably shape our perceptions both historically and in the present moment founding feminisms in medieval studies advances that critical endeavour with new questions and insights relating to gender and queer studies sexualities the subaltern margins and blurred boundaries the volume s contributions from french literary studies as well as german english history and art history evince a variety of modes of feminist analysis primarily in medieval studies but with extensions into early modernism several interrogate the ethics of feminist hermeneutics the function of women characters in various literary genres and so called natural binaries sex gender male female
