ideal for students with little or no background in philosophy ethical choices an introduction to moral philosophy with cases provides a concise balanced and highly accessible introduction to ethics featuring an especially lucid and engaging writing style the text surveys a wide range of ethical theories and perspectives including consequentialist ethics deontological ethics natural and virtue ethics the ethics of care and ethics and religion

this book collects original essays on the epistemology of modality and related issues in modal metaphysics and philosophical methodology the contributors utilize both the newer metaphysics first and the more traditional epistemology first approaches to these issues the chapters on modal epistemology mostly focus on the problem of how we can gain knowledge of possibilities which have never been actualized or necessities which are not provable either by logico mathematical reasoning or by linguistic competence alone these issues are closely related to some of the central issues in philosophical methodology notably to what extent is the armchair methodology of philosophy a reliable guide for the formation of beliefs about what is possible and necessary this question also relates to the nature of thought experiments that are extensively used in science and philosophy epistemology of modality and philosophical methodology will be of interest to researchers and advanced students working on the epistemology and metaphysics of modality as well as those whose work is concerned with philosophical methodology more generally

this is a collection of canadian legal decisions primarily from the supreme court of canada along with international cases that have bearing on canadian law the selected cases raise and respond to current and controversial issues in political and legal

philosophy cases have been edited to present key legal principles and methods of judicial reasoning in action showing not only what was decided but also how the decisions were made topics include constitutional law fundamental freedoms equality rights civil and criminal responsibility and sovereignty this new fifth edition adds over two dozen new cases including new sections on indigenous issues and international law a helpful glossary of common legal terms has also been added as an appendix

experimental philosophy is one of the most exciting and controversial philosophical movements today this book explores how it is reshaping thought about philosophical method experimental philosophy imports experimental methods and findings from psychology into philosophy these fresh resources can be used to develop and defend both armchair methods and naturalist approaches on an empirical basis this outstanding collection brings together leading proponents of this new meta philosophical naturalism from within and beyond experimental philosophy they explore how the empirical study of philosophically relevant intuition and cognition transforms traditional philosophical approaches and facilitates fresh ones part one examines important uses of traditional armchair methods which are not threatened by experimental work and develops empirically informed accounts of such methods that can potentially stand up to experimental scrutiny part two analyses different uses and rationales of experimental methods in several areas of philosophy and addresses the key methodological challenges to experimental philosophy do its experiments target the intuitions that matter in philosophy and how can they support conclusions about the rights and wrongs of philosophical views essential reading for students of experimental philosophy and metaphilosophy experimental philosophy rationalism and naturalism will also interest students and researchers in related areas such as epistemology and the philosophies of language perception mind and action science and psychology

the first full length critical appraisal of laclau s work with contributions from leading philosophers and theorists the collection includes replies to his critics by laclau and the important exchange between laclau and judith butler on equality

the new field of experimental philosophy has emerged as the methods of psychological science have been brought to bear on traditional philosophical issues

oxford studies in experimental philosophy is the place to go to see outstanding new work in the field it features papers by philosophers papers by psychologists and papers co authored by people in both disciplines the series heralds the emergence of a truly interdisciplinary field in which people from different disciplines are working together to address a shared set of questions this fourth volume showcases the growing depth and breadth of the field epistemology and moral psychology have been important foci of past work in experimental philosophy and the contributions in this volume attest to the ways in which empirical methods are being used to add nuance to previous claims both theoretical and empirical alongside this progress on familiar topics we see an expansion to new areas in mind and metaphysics with studies exploring how people typically conceptualize different aspects of mind and different kinds of minds including the extension of agentive modes of thinking well beyond the mental the volume concludes where the field began with explicit attention to philosophical methodology and the ways in which empirical results can inform philosophical debates
