this book takes a look at the differences and some similarities in a history of baseball that might have been had the game been integrated from the start page 4

colonial america stretched from quebec to buenos aires and from the atlantic littoral to the pacific coast although european settlers laid claim to territories they called new spain new england and new france the reality of living in those spaces had little to do with european kingdoms instead the new world's holdings took their form and shape from the indian territories they inhabited these contested spaces throughout the western hemisphere were not unclaimed lands waiting to be conquered and populated but a single vast space occupied by native communities and defined by the meeting mingling and clashing of peoples creating societies unlike any that the world had seen before contested spaces of early america brings together some of the most distinguished historians in the field to view

colonial america on the largest possible scale lavishly illustrated with maps native art and color plates the twelve chapters span the southern reaches of new spain through mexico and navajo country to the dakotas and upper canada and the early indian civilizations to the ruins of the nineteenth century west at the heart of this volume is a search for a human geography of colonial relations contested spaces of early america aims to rid the historical landscape of imperial cores frontier peripheries and modern national borders to redefine the way scholars imagine colonial america contributors matthew babcock ned blackhawk chantal cramaussel brian delay elizabeth fenn allan greer pekka hämäläinen raúl josé mandrini cynthia radding birgit brander rasmussen alan taylor and samuel truett

previous banking histories have focused on the money supply function of early american banks and its connection to the recurrent boom bust cycle of the antebellum era this history focuses on the credit generating function of american banks it demonstrates that banks aggressively promoted development rather than passively followed its course using previously unexploited data professor bodenhorn shows that banks helped to advance the development of incipient industrialization additionally he shows that banks formed long distance relationships that promoted geographic capital mobility thereby assuring that short term capital was directed in socially desirable directions that is where it was most in demand he then traces those institutional and legal developments that allowed for this capital mobility the result was that america was served by an efficient system of financial intermediaries by the mid nineteenth century

during french colonial rule in louisiana nuns from the french company of saint ursula came to new orleans where they educated women and girls of european indian and african descent enslaved and free in literacy numeracy and the catholic faith although religious women had gained acceptance and authority in seventeenth century france the new world was less welcoming emily clark explores the transformations required of the ursulines as their distinctive female piety collided with slave society spanish colonial rule and protestant hostility the ursulines gained prominence in new orleans through the social services they provided schooling an orphanage and refuge for abused and widowed women which also allowed them a self sustaining level of corporate wealth clark traces the conflicts the ursulines encountered through spanish colonial rule 1767 1803 and after the louisiana purchase as protestants poured into louisiana and were dismayed to find a powerful community of self supporting women and a church congregation dominated by african americans the unmarried nuns contravened both the patriarchal order of the slaveholding american south and the protestant construction of femininity that supported it by incorporating their story into the history of early america masterless mistresses exposes the limits of the republican model of national unity

in the transatlantic world of the late eighteenth century easterly winds blew radical thought to america thomas paine had already arrived on these shores in 1774 and made his mark as a radical pamphleteer during the revolution in his wake followed more than 200 other radical exiles english dissenters whigs and painites scottish lads o parts and irish patriots who became influential newspaper writers and editors and helped change the nature of political discourse in a young nation michael durey has written the first full scale analysis of these radicals evaluating the long term influence their ideas have had on american political thought transatlantic radicals uncovers the roots of their radicalism in the old world and tells the story of how these men came to be exiled how they emigrated and how they participated in the politics of their adopted country nearly all of these radicals looked to paine as their spiritual leader and to thomas jefferson as their political champion they held egalitarian anti federalist values and promoted an extreme form of

participatory democracy that found a niche in the radical wing of jefferson s republican party their divided views on slavery however reveal that democratic republicanism was unable to cope with the realities of that institution as political activists during the 1790s they proved crucial to jefferson s 1800 presidential victory then after his views moderated and their influence waned many repatriated others drifted into anonymity and a few managed to find success in the new world although many of these men are known to us through other histories their influence as a group has never before been so closely examined durey persuasively demonstrates that the intellectual ferment in britain did indeed have tremendous influence on american politics his account of that influence sheds considerable light on transatlantic political history and differences in religious political and economic freedoms skillfully balancing a large cast of characters transatlantic radicals depicts the diversity of their experiences and shows how crucial these reluctant émigrés were to shaping our republic in its formative years

this book represents a prodigious study of judgment recognition practices in the central american states and is for that reason alone an important and needed contribution to comparative law distinguished legal scholar robert c casad details the history and present arrangements in central america compares the central american system to interstate judgment recognition arrangements in the u s and the european economic community and considers important suggestions for reform in central america this book brings together for the first time in one source translated into english the texts of the relevant code provisions of each of the six central american countries as well as the text of the bustamante code the multi lateral treaty and the european economic community judgment recognition convention

early america re explored is a transatlantic joint venture in which scholars from the united states england and germany re read and recontextualize american writings from the colonial to the antebellum periods the authors and topics analyzed range from winthrop and puritan rhetorics the pynchons and ha w thornes puritan missionary discourse rowlandson s captivity narrative in the context of native american history scottish american self fashioning the cultural inscription of ashbridge s autobiography and the transatlantic subtext of wheatley s poetry to the theory and practice of the early american novel play and short story the role of geography books in the construction of american identities women and native americans in child and sedgwick the abolitionist writings of m stewart political dimensions of bryant s poetry and of the nineteenth century rogue narrative technology in antebellum short stories and postcolonial aspects of cooper s poe s and melville s sea fiction the contributors include j achilles s bercovitch m brückner v carretta w fluck u hebel f kelleter s krause g mackenthun d madsen s matter seibel o moore n salisbury d schloss j schöpp d williams and j zanger
