the fourth edition of basic economics is both expanded and updated a new chapter on the history of economics itself has been added and the implications of that history examined a new section on the special role of corporations in the economy has been added to the chapter on government and big business among other additions throughout the book basic economics which has now been translated into six languages has grown so much that a large amount of material in the back of the book in previous editions has now been put online instead so the book itself and its price will not have to expand the central idea of basic economics however remains the same that the

fundamental facts and principles of economics do not require jargon graphs or equations and can be learned in a relaxed and even enjoyable way

the bestselling citizen s guide to economics basic economics is a citizen s guide to economics written for those who want to understand how the economy works but have no interest in jargon or equations bestselling economist thomas sowell explains the general principles underlying different economic systems capitalist socialist feudal and so on in readable language he shows how to critique economic policies in terms of the incentives they create rather than the goals they proclaim with clear explanations of the entire field from rent control and the rise and fall of businesses to the international balance of payments this is the first book for anyone who wishes to understand how the economy functions this fifth edition includes a new chapter explaining the reasons for large differences of wealth and income between nations drawing on lively examples from around the world and from centuries of history sowell explains basic economic principles for the general public in plain english

an accessible jargon free resource outlines the principles behind each major type of economy including capitalist socialist and feudal in terms of the incentives each creates

the application of economics to major contemporary real world problems housing medical care discrimination the economic development of nations is the theme of this new book that tackles these and other issues head on in plain language as distinguished from the usual jargon of economists it examines economic policies not simply in terms of their immediate effects but also in terms of their later repercussions which are often very different and longer lasting the interplay of politics with economics is another theme of applied economics whose examples are drawn from experiences around the world showing how similar incentives and constraints tend to produce similar outcomes among very disparate peoples and cultures

the must read summary of thomas sowell s book applied economics thinking beyond stage one this complete summary of applied economics by thomas sowell a renowned american economist and social theorist presents his examination of the decisions made in american politics and the impact they have on the economy in his book the author presents his arguments alongside researched evidence and his own experience to show how similar decisions have produced similar outcomes elsewhere in the world added value of this summary save time understand how political decisions influence the economy expand your knowledge of economics and politics to learn more read applied economics and discover how the decisions being made in american politics have huge consequences on the economy

reassesses the theory and methods of classical economics in a study of the history of economic thought which discusses how various economic principles and tools of analysis evolved the concepts of classical macroeconomics and microeconomics the role of

a one volume introduction to over three decades of the wide ranging writings of one of america s most respected and cited authors these selections from the many writings of thomas sowell over a period of a half century cover social economic cultural legal educational and political issues the sources range from dr sowell s letters books newspaper columns and articles in both scholarly journals and popular magazines the topics range from late talking children to tax cuts for the rich baseball race war the role of judges medical care and the rhetoric of politicians these topics are dealt with by sometimes drawing on history sometimes drawing on economics and sometimes drawing on a sense of humor the thomas sowell reader includes essays on social issues economics political issues legal issues race and ethnicity educational issues biographical sketches random thoughts my hope is that this large selection of my writings will reduce the likelihood that readers will misunderstand what i have said on many controversial issues over the years whether the reader will agree with all my conclusions is another question entirely but disagreements can be productive while misunderstandings seldom are thomas sowell

the fourth edition of basic economics is both expanded and updated a new chapter on the history of economics itself has been added and the implications of that history examined a new section on the special role of corporations in the economy has been added to the chapter on government and big business among other additions throughout the book basic economics which has now been translated into six languages has grown so much that a large amount of material in the back of the book in previous editions has now been put online instead so the book itself and its price will not have to expand the central idea of basic economics however remains the same that the fundamental facts and principles of economics do not require jargon graphs or equations and can be learned in a relaxed and even enjoyable way

this book introduces and critically analyzes the achievements of major black economists and their contributions to the realm of economic thought kojo quartey s book provides an essential supplement to any economic history text

a comprehensive four volume resource that explains more than 800 topics within the foundations of economics macroeconomics microeconomics and global economics all presented in an easy to read format as the global economy becomes increasingly

complex interconnected and therefore relevant to each individual in every country it becomes more important to be economically literate to gain an understanding of how things work beyond the microcosm of the economic needs of a single individual or family unit this expansive reference set serves to establish basic economic literacy of students and researchers providing more than 800 objective and factually driven entries on all the major themes and topics in economics written by leading scholars and practitioners the set provides readers with a framework for understanding economics as mentioned and debated in the public forum and media each of the volumes includes coverage of important events throughout economic history biographies of the major economists who have shaped the world of economics and highlights of the legislative acts that have shaped the u s economy throughout history the extensive explanations of major economic concepts combined with selected key historical primary source documents and a glossary will endow readers with a fuller comprehension of our economic world

sowell challenges all the assumptions of contemporary liberalism on issues ranging from the economy to race to education in this collection of controversial essays and captures his thoughts on politics race and common sense with a section at the end for thought provoking quotes

larry elder believes in the american people s power to overcome almost any circumstance if only government would stop telling them they can t in this column collection elder takes on a range of controversial issues from the coronavirus to cancel culture from election fraud to black lives matter protests with his signature wit and uncommon good sense

a study of the political theory that underlies the conservative economic thought of such economists as milton friedman james buchanan and friedrich hayek and its implications for public policy the author analyzes the political content of ideas that justify a laissez faire policy

in wealth poverty and politics thomas sowell one of the foremost conservative public intellectuals in this country argues that political and ideological struggles have led to dangerous confusion about income inequality in america pundits and politically motivated economists trumpet ambiguous statistics and sensational theories while ignoring the true determinant of income inequality the production of wealth we cannot properly understand inequality if we focus exclusively on the distribution of wealth and ignore wealth production factors such as geography demography and culture sowell contends that liberals have a particular interest in misreading the data and chastises

them for using income inequality as an argument for the welfare state refuting thomas piketty paul krugman and others on the left sowell draws on accurate empirical data to show that the inequality is not nearly as extreme or sensational as we have been led to believe transcending partisanship through a careful examination of data wealth poverty and politics reveals the truth about the most explosive political issue of our time

thomas sowell takes aim at a range of legal social racial educational and economic issues in this latest collection of his controversial never boring always thought provoking essays from gun control myths to mealy mouth media to free lunch medicine sowell gets to the heart of the matters we all care about with his characteristically unsparing candor

from renowned economist thomas sowell an indispensable examination of widespread economic fallacies from one of america s most noted conservative economists a short original book that offers some unconventional ideas about how to think about common economic topics baltimore sun in this revised and expanded edition of economic facts and fallacies thomas sowell exposes some of the most popular fallacies about economic issues in a lively manner that does not require any prior knowledge of economics these fallacies include many beliefs widely disseminated in the media and by politicians such as fallacies about urban problems income differences male female economic differences as well as economic fallacies about academia about race and about third world countries
