this book is part of a series which aims to help english language learners to become fluent in spoken english it is the first in a planned series of three and caters for those learners who are ready to move up to the esl english as a second language pre intermediate level in spoken english we begin here because in terms of the spoken language the leap from the elementary to the pre intermediate level is one of the biggest hurdles faced by english language learners it is one of the greatest hurdles because it is at this stage that the learner must move from simple spoken forms to a degree of fluency that begins to use more complex forms of the language it is the first major hurdle that very many learners cannot get over as a result it is at this point that a learner can become

stuck and either give up trying to become fluent in spoken english or fail to make any real progress in comparison to their writing

and reading skills there are two main reasons why this happens the first is that native english speakers do not speak the language in the same way that they write it the spoken word very often bears little or no resemblance to the written word the second is that a spoken language must be learnt it cannot be taught by this we mean that while all learning is a two way process between the instructor and the learner when it comes to learning to speak a language something more than 80 of the work must be done by the learner on their own one of the obvious areas where this is true is in the need to learn vocabulary to become fluent in a spoken language a great many new words must be learnt and only the learner can do that the instructor cannot learn them for him how that vocabulary is learnt is a large issue by far the vast majority of learners try to do this by memorising list of english words and their equivalent meanings in their native language this does not in this book you will discover a new way to learn the vocabulary that you need and how to make it fun to learn the emphasis in this book is on practical use of the language in each unit learners are given the opportunity to extend their vocabulary and to practice speaking the language of the native speakers we have called this idiomatic spoken english or everyday english all of the examples and dialogues in this book use this language it is not slang or street language but a language that uses all the shortcuts and tricks that native speakers use to keep a fluent and rhythmic flow of words when they speak successfully reproducing the rhythm of english enunciation is one of the main secrets of being able to speak the language fluently in this book we describe how that rhythm is actually built up and use the work of some of the great english poets to help the learner to get a feel for the very beautiful cadences that english is capable of each unit includes a full poem or occasionally an extract from a very long poem with notes about the rhythm metre of the poem together with its meaning and background of no less

importance than enunciation is pronunciation all learners no matter what their native language might be have some difficulty in

pronouncing english correctly for this reason great emphasis is placed on the sounds of english and each unit includes examples and rigorous exercises for two of the 44 sounds that make up the english language the first three units of the book set out the essential foundations of the nutshell way to learn to speak english fluently some of the six basic principles introduced in unit one on which this is based may well surprise many learners and not a few instructors but our experiences as instructor and learner have shown us that this radical approach is not only workable but absolutely necessary if a learner is to clear the hurdle and learn to speak fluent english with confidence

the topic of this book is in congruence with the current trends in foreign language education worldwide on the one hand it tackles the concept and implementation of intercultural language teaching on the other it analyses the circumstances in which information and communication technology may be utilised in the contemporary efl classroom both intercultural teaching and computer assisted language learning call have been promoted by national international educational documents in europe the usa and asia and endorsed by international organisations including the council of europe and unesco this book constitutes a pioneering attempt at establishing the role of ict in english language and culture teaching within the polish education system however the research instruments used within both research modules are applicable to other education systems worldwide while the results obtained have implications for intercultural and computer assisted language education in international contexts the research results presented in the book highlight to the broad efl profession a wide range of issues relating to the use of ict in the foreign language classroom they also offer materials
