the processes of modernization and globalization promise more wealth and health for many people but they are also a threat to the stability and quality of marriage and family life this new book at once sobering and constructive looks at the impact of these processes on marriage and asks what christianity in cooperation with other religions can do to strengthen married life today among the deleterious effects of modernization and globalization on marriage are a worldwide drift of men away from the responsibility of parenthood and the tendency of mothers too readily to take on the task of childrearing alone after looking at recent research on these and other problems don browning suggests that the cure for modern marital disruption entails reforming and reconstructing the institution of marriage while also nurturing relevant forms of social support yet the effort to initiate a world marriage revival requires a complex cultural work and browning explores the key contributions that the religions of the world must make for such an effort to be successful

irrespective of source and manner of aid management any aid received by a non good governance government above the food aid threshold tends to increase transaction cost toward infinity transaction cost theorem the donor can reduce the transaction cost or social cost for the aid recipient by withholding the aid under the new dispensation of the global good governance government which came into a clear profile after the global economy meltdown and the environmental crises that level of food aid is now unconditionally received as human right this monograph concludes that of all the major problems global good governance government is confronted with today the problem of the aid dependent economy is perhaps the easiest and the least costly to solve

by making use of a wide range of in depth case studies from various developing countries and post communist states this book analyzes the causes and effects of neoliberal restructuring and the process of depolitization that went with it the contributors critically examine the contradictory nature of good governance and the consequences that have been seen to go with it this important book provides a contribution to the literature on good governance it will provide an interesting read for those with an interest in economics and development studies as well as being useful to policy makers and non governmental organizations book jacket

bringing together contributions from anthropology sociology religious studies and philosophy along with ethnographic case studies from diverse settings this volume explores how different disciplinary perspectives on the good might engage with and enrich each other the chapters examine how people realize the good in social life exploring how ethics and values relate to forms of suffering power and inequality and in doing so demonstrate how focusing on the good enhances social theory this is the first interdisciplinary engagement with what it means to study the good as a fundamental aspect of social life

the good life and the greater good in a global context offers a timely contribution to the debates about the good life that surround us every day in the media politics the humanities and social sciences the authors examine the relationship between the good life and the greater good as represented across different genres media cultures and disciplines this enables them to develop a framework of values that transcends the overly rational and individualistic model of the good life advanced by neoliberalism and the happiness industry thus over and against normative conceptualizations of the good life that reduce meaning to money creativity to consumption and compassion to self help the contributors propose an ethically charged philosophy of living that views the care for the self for the other and for the planet as the catalysts of true human flourishing in addition to recovering the original usage of the good life from classical thought especially the aristotelian understanding of eudaimonia as living well and doing well the essays gathered here highlight its entanglement with distinctly modern ideas of happiness wellbeing flourishing progress revolution democracy the american dream utopia and sustainability as such the essays capture the breadth and depth of the conversation about the good life that is of central importance to how we relate to the past engage the present and envision the future
