against the background of the media commercialization reform since the 1990s in China and drawing on the case of X Change 2006-2019

wei dong investigates the affective meaning making mechanism in the multimodal text of chinese reality tv the focus lies on the ways in which emotions are appropriated and disciplined by regimes of power and identity and the ways in which affect in this case primarily kuqing bitter emotions communicated by the material and the body have the potential to challenge or exceed existing relations of power in the mediascape wei dong shows how chinese reality tv provides a historical and theoretical opportunity for understanding the affective structures of contemporary china in the dynamic process of fracture and integration

affective states have a highly important yet little understood influence on how people think about remember and respond to social situations contributions from leading psychologists in the field review and integrate the most recent work on the role of affect in social life they offer new insights on the fundamental links between affect and cognition and report recent research and theories illustrating how affective states can play a subtle and often subconscious role in guiding peoples thoughts memories judgments attitudes and behaviors in social situations the insights offered in this book have major implications for several applied fields where the links between feeling thinking and behavior are of interest such as clinical counseling health and organizational psychology

absolutely essential reading for those wanting to understand the recent turn to affect offering an extensive analysis of all the perspectives available including the psycho neuro bio and social margie wetherell treads a magisterial path through the radically different offerings one that illuminates key ideas and will save the uninitiated wandering down many pointless avenues a path setting book professor beverley skeggs goldsmiths in recent years there has been a huge surge of interest in affect and emotion scholars want to discover how people are moved and understand embodied social action feelings and passions how do social formations grab people how do roller coasters of contempt patriotism hate and euphoria power public life a new social science understanding of affect and emotion is long overdue and margaret wetherell s voice is timely providing a coherent and pragmatic text it will be invaluable reading for those interested in this fascinating field across the social and behavioural sciences

emotion affective practices and the past in the present is a response to debates in the humanities and social sciences about the use of emotion this timely and unique book explores the ways emotion is embroiled and used in contemporary engagements with the past particularly in contexts such as heritage sites museums commemorations political rhetoric and ideology debates over issues of social memory and touristic uses of heritage sites including contributions from academics and practitioners in a range of countries the book reviews significant and conflicting academic debates on the nature and expression of affect and emotion as a whole the book makes an argument for a pragmatic understanding of affect and in doing so outlines wetherell s concept of affective practice a concept utilised in most of the chapters in this book since debates about affect and emotion can often be confusing and abstract the book aims to clarify these debates and through the use of case studies draw out their implications for theory and practice within heritage and museum studies emotion affective practices and the past in the present should be essential reading for students academics and professionals in the fields of heritage and museum studies the book will also be of interest to those in other disciplines such as social psychology education archaeology tourism studies cultural studies media studies anthropology sociology and history

decades of research on affect and emotion have brought out the paramount importance of affective processes for human lives affect in relation brings together perspectives from social science and cultural studies to analyze the formative subject constituting potentials of affect and emotion relational affect is understood not as individual mental states but as social relational processes that are both formative and transformative of human subjects this volume explores relational affect through a combination of interdisciplinary case studies within four key contexts part i affective families deals with the affective dynamics in transnational families who are scattered across several regions and nations part ii affect and place brings together work on affective place making in the contexts of migration and in political movements part iii affect at work analyzes the affective dimension of contemporary white collar workplaces part iv affect and media focuses on the role of media in the formation and mobilization of relational affect in its transdisciplinary spirit analytical rigor and focus on timely and salient global matters affect in relation consolidates the field of affect studies and opens up new avenues for scholarly and practical co operation it will appeal to both students and postdoctoral researchers interested in fields such as anthropology sociology cultural studies media studies and human development

since the mid 1990s affect has become central to the social sciences and humanities debates abound over how to conceptualise affect and how to understand the interrelationships between affective life and a range of contemporary political transformations in encountering affect ben anderson explores why understanding affect matters and offers one account of affective life that hones in on the different ways in which affects are ordered intervening in debates around non representational theories he argues that affective life is always already mediated the never finished product of apparatuses encounters and conditions through a wide range of examples including dread debility dependency in torture ordinary hopes and precariousness anderson shows the significance of affect for understanding life today

the role of affect in how people think and behave in social situations has been a source of fascination to laymen and philosophers since time immemorial surprisingly most of what we know about the role of feelings in social thinking and behavior has been discovered only during the last two decades affect in social thinking and behavior reviews and integrates the most recent research and theories on this exciting topic and features original contributions reviewing key areas of affect research from leading researchers active in the area the book covers fundamental issues such as the nature and relationship between affect and cognition as well as chapters that deal with the cognitive antecedents of emotion and the consequences of affect for social cognition and behavior this volume offers a highly integrated and comprehensive coverage of this field and is suitable as a core textbook in advanced courses dealing with the role of affect in social cognition and behavior
