this book examines how the covid 19 pandemic has engendered a new and challenging environment in which borders drawn around people places and social structures have hardened and new ones have emerged over the course of the covid 19 pandemic borders closed or became unwelcoming at the international national sub national and local levels debate persists as to whether those countries and territories that tightly managed their borders like new zealand australia or hong kong got it right compared to those that did not without doubt a majority of those who suffered and died throughout the pandemic have been those from vulnerable populations yet on the other hand efforts taken to manage the spread of the disease such as through border management have also disproportionately affected those who are most vulnerable how then is the right balance to be struck acknowledging too the

economic and other imperatives that may dissuade governments from taking public health steps this book considers how international organizations countries and institutions within those countries should conceive of and manage borders as the world continues to struggle with covid 19 and prepares for the next pandemic engaging a range of international and sub national examples the book thematizes the main issues at stake in the control and management of borders in the interests of public health this book will be of considerable interest to academics in the fields of health law anthropology economics history medicine public health and political science as well as policymakers and public health planners at national and sub national levels
