as a leader you know that developing leaders is crucial to your team s success you also know that when life gets busy meaningful leader development activities take a back seat to the swarm of everyday tasks who has time to discuss let alone research and refine quality content that will make a real difference andrew steadman has lived this frustration and wrote the military leader to give leaders straightforward highly relevant inspirational leader development insight they can use to grow themselves and their teams the military leader is your leader development program when you don t have time for one

no one man can win a battle by himself but battles have been won and lost because of the strength or failings of one individual the leader what went on in the minds and hearts of a select group of military leaders at critical moments in battle is the theme of this book in leaders and battles w j wood re creates ten battles from history depicting the action in vivid detail the brilliant formations charging horses clanking bayonets the point of view is always that of the commanding officer the particular quality of leadership that won or lost the encounter is very clear for mad anthony wayne at stony point it was courage that won the day for scipio africanus at ilipa it was imagination custer s judgment at the little big

horn was definitely in question when the french stormed ratisbon it was the inspiration of lannes that broke the impasse at the battle of bushy run bouquet could never have outwitted pontiac had he lacked flexibility the dynamics of battle as well as the strategy and tactics involved are equally well demonstrated though the means of fighting varied as much as the time and the civilizations involved the lessons learned are just as applicable today men no longer fight with drawn swords make barricades out of mealie bags or use a swarm of bees as a weapon but that is part of this book s fascination leaders and battles is a remarkable retelling of fighting engagements for the armchair strategist the leader in training the history buff and the general reader it will take time before the major wars and low intensity skirmishes of this century can be written about with the historical detachment and understanding that the author displays here in the meantime we can all profit from these lessons of history

when faced with complex problems military leaders frequently fail to reach desired strategic outcomes a leader with years of personal experience and a track record of success often runs headlong into a highly complex operational environment and achieves poor results these leaders often consider the situation from only a military perspective and as a consequence arrive at a simplistic understanding of the environment this poor understanding frequently pairs well with biased solutions favored by military institutions even if they generate an innovative approach few leaders possess the capability to achieve buy in from superiors and subordinates to see it through a leader who possesses a gift for strategic understanding paired with a capacity to realize new approaches would be the elusive strategic genius what traits make a strategic genius though several military theorists such as lawrence freedman and colin gray warn that such rare genius may not exist carl von clausewitz contends that such a leader is possible but would require a harmonious combination of several traits while the prussian provides

some vague suggestions his description of genius fails to offer tangible characteristics that are relevant to today's operational environment several modern theorists examine how such an individual might think and some offer how this person might lead but few combine these traits to develop the concept of strategic genius as a whole looking at both strategic thinking and strategic leadership through an interdisciplinary lens of complexity science design theory and history this monograph examines how a leader's perspective on problems and style of communication can generate strategic genius rather than prescribing a set of characteristics this work suggests that strategic genius requires a unique combination of diverse perspectives on complex and adaptive environments matched with the compelling courage to recognize and resist personal biases and gain institutional buy in to achieve innovative results rather than searching for how to attain or how to practice strategic genius this monograph simply asks what is strategic genius to this end instead of describing the development of strategic genius this monograph attempts to describe its characteristics in short this work offers the what of strategic genius and only implies how such an ability develops rather than separating concepts of strategic thinking and strategic leadership this monograph attempts to understand the effective combination of both within the same leader this work uses abductive reasoning synthesizing contemporary theories to develop a working hypothesis and then tests this combined theory against two historical case studies

the sixth edition of this classic text continues its popular interdisciplinary approach to the topic of leadership by examining fundamental elements of military leadership the process of leadership the dynamic personal interactions between leader and followers and the individual and organizational values that foster effective military leadership military leadership provides a thoroughly reconsidered and greatly expanded mix

of classic and contemporary articles as well as original essays with authors representing all of the services incisive introductory essays to each section highlight themes and connections eric b rosenbach joins the editorial team for this edition helping infuse the text with fresh perspectives the essays of the sixth edition confront the kudos and criticisms that surround military leadership today offer international viewpoints and relate military leadership to contemporary leadership theory and approaches

in 1428 a young girl from a small french village approached the royal castle of vaucouleurs with a now famous tale heavenly voices she said had told her to seek out the dauphin charles so that he might give her an army with which to deliver france from its english occupiers the ensuing tale of joan s military success is told here in a gripping and authoritative narrative previous works have concentrated on the religious and feminist aspects of joan s career this is the first to address the vital issue of what it was that made her the heroine she became why did the soldiers of france follow a woman into battle when no troops of the hundred years war had done so before and how was she able to win this book is essential reading for anyone interested in the middle ages and the phenomenon of the girl warrior

before the war and still more during the conquest of the west hitler came to appear a gigantic figure combining the strategy of a napoleon with the cunning of a machiavelli and the fanatical fervour of a mohomet after his first check in russia his figure began to shrink and towards the end he was regarded as a blundering amateur in the military field whose crazy orders and crass ignorance had been the allies greatest asset all the disasters of the german army were attributed to hitler all its successes were credited to the german general staff b h liddell hart liddell hart goes on to say that while this description of adolf hitler may not be entirely true there is certainly some truth to it while conducting the research for

this project it became increasingly apparent that in the late 1930s Hitler was indeed a successful military leader. The impetus behind this success was partly due to Hitler's political decision-making process which in effect laid the foundation for World War II. However, as his success continued to mount, he became more and more involved in the intricacies of battlefield tactics and strategy. This is where Hitler's and Germany's eventual downfall for the conquest of Europe began. Upon examining Hitler's strengths, weaknesses, and decision-making processes as a military leader, one can begin to fully appreciate how the infamous stop order at Dunkirk and his no retreat policy at Stalingrad are often referred to as Hitler's greatest blunders of World War II.

Percy Ernst Schramm, one of Germany's most distinguished historians, had exceptional insight into Hitler's headquarters while acting as war diary office of the High Command of the German Armed Forces. This classic volume, long out of print, contains the introductions written by Schramm to critical editions of Hitler's table talk and the official war diary of the High Command of the Wehrmacht. In addition, there are two appendices: the first consisting of excerpts from a study composed by Schramm for the Nuremberg trials on relations between Hitler and the General Staff; the second, a memorandum written by General Jodl in 1946 on Hitler's military leadership.

These essays do not occupy more than 100 pages, but it took more than 25 years of study to write all of them. Orders and obedience was conceived in 1979 when I started reading Ironsides' book on Tannenberg. It was drafted and pieced together as an article in 1985 and was sent to the *Sabre and Lance* journal of the Armored Corps for publication. The editor just filed it; I forgot the article and remembered it only in 1979 when my friend Captain Abid Hamza insisted that I send it to the Pakistan Army Journal for publication. The editor thought that it was politically sensitive in

a censorship bound army but suggested that i publish it as a short letters to editor in pakistan army journals 1989 issue it was published and did not ruffle any feathers so the brave editor colonel i d hassan finally agreed to publish it the article was published in pakistan army journals march 1991 issue i d hassan the cerebral bachelor had departed but luckily another bold editor colonel syed ishfaq naqvi had taken over this article is important for a leader as it resolves many contradictions and inner conflicts that a military leader may experience in military decision making the second article resolution cardinal command virtue deals with the most important quality in the character of a military leader and decision maker it was published in pakistan army journals june 1992 issue that it escaped censorship from the myopic and paranoid military intelligence directorate was a miracle i say this because it was stated that a quality known as docility was highly valued in a military leader in pakistan army to my good luck colonel ishfaq naqvis successor editor lieutenant colonel syed jawaid ahmad was a bold editor behind a gentle and mild facade the intangibles behind a military manoeuvre was my final summing up of the clausewitzian model of military leadership and i regard it as an 18 years long effort it was culmination of my study of military history from 1975 applied on ground as an independent tank squadron commander in the desert in 1992 93 plain as well as subtle aspects of military decision making i regard as the final summing up of all that is important and salient in military decision making its publication was singularly owed to a brave and brilliant editor of the citadel journal of command and staff college quetta lieutenant colonel ashraf saleem he later rose to a three star general relationship of organisation to doctrine and conduct of war was a landmark in personal terms as this article highlighted anomalies and weak areas in pakistan armys higher command structure this was 1998 i was lucky that a very bold armor officer lieutenant colonel tariq khan was the editor and it was only he who could have published it i can state with pride that the recommendations made in that article were implemented when commands were created in the
