this is a textbook designed for undergraduate and graduate students and is the result of the author s more than twenty years of involvement with econometrics as both teacher and researcher it contains theory problems and answers many of which have already been tested extensively in classrooms and tutorials and then refined for the book it includes the following topics single equation regressions dummy and limited dependent variable models simultaneous equations models dynamic regression models unit roots cointegration and error correction models aggregation over time issues forecasting and panel data models the book does not attempt to duplicate the many standard econometrics books rather it supplements them by focusing exclusively on theoretical and empirical exercises in a systematic way although much of the material has a caribbean flavour its rigorous and clear presentation will appeal to students and teachers worldwide

diploma thesis from the year 2006 in the subject economics finance grade 2 university of frankfurt main language english abstract in the last years several studies in the last years analyzed the effects of financial friction in the transmission process of central banks in this study these effects will be taken into regard for currency zones of the three major currencies euro us dollar and british pound the primary focus of the study will be a comparison between the euro area ea and the united states us these two regions are of a similar economical size but they

represent different financial systems this implies that they underlie different financial friction the united kingdom uk is taken into regard as it reflects an european economical and social system but has an anglo saxon financial system which is strongly comparable to the united states this enables us to use the uk to as a test sample to investigate whether experienced responses in economic variables actually might relate to financial friction or if they depend on other factors this comparison will be part of the key point of this thesis as seen in the following analysis

one of the major challenges facing sub saharan african organizations today is how to effectively manage their resources though the importance of effective management of organizational resources is generally acknowledged published research on the theme is disappointingly scarce this book hopes to contribute in filling the lacuna contributors to the volume which is the first in a book series from african journal of business and economic research ajber a peer reviewed triennial publication discuss various management issues in sub saharan africa such as employee motivation job satisfaction compensation organizational commitment ethics social responsibility and export management and the interplay between these and the effective management of an organization s resources they argue that effective management of organizational resources whether in the public or private sector promotes efficiency which in turn enhances the organization s ability to compete the contributors also offer valuable insights into why many organizations in sub saharan africa are inefficiently managed and offer desiderata for overcoming such challenges
