armor your self tm is about saving the lives of the people who save lives this book is for all law enforcement

professionals and other first responders police work is the most toxic job on the planet and if the members of the law enforcement community don't take measures to protect themselves this job will eat them up if law enforcement officers did a true threat assessment of their careers they would realize that the real dangers lie not with the bad guys but within the stresses of the job high rates of suicide depression alcoholism domestic violence PTSD heart attack and cancer are the real cop killers armor your self™ how to survive a career in law enforcement helps law enforcement professionals armor themselves physically mentally emotionally and spiritually this book is also for law enforcement family members to use to learn how to help your family survive this career as well in this book you will learn about blue trauma syndrome the 7 key factors of tactical resilience™ comprehensive survival skills to save your life and your health critical concepts for stress reduction how to armor your agency™ the concept of true blue valor™ this book is filled with practical exercises tactics and techniques to help you build your resilience intentionally many people who serve and who have served in law enforcement bear the scars of the cumulative stresses that accompany the career the law enforcement survival institute LESI and Copsalve.com work tirelessly to assemble strategies tactics and best practices to help anyone working in this profession successfully survive their career LESI and Copsalve.com work with agencies and families to create environments that support healthy happy and effective law enforcement professionals both on the job and at home

the primary purpose of this document is to help state local education agencies schools develop adequate policies procedures to protect information about students their families from improper release while satisfying the need for school officials to make sound management instructional service decisions sections include a primer for privacy summary of key federal laws protecting the privacy of individuals during the data collection process securing the privacy of data maintained used within an agency providing parents access to their child's records releasing information outside an agency 5 appendices

one of today's most pressing issues in criminology and crime prevention is the problem of crime in our cities and towns and its prevention the topic of crime prevention in the urban community was discussed at the 47th international course of the international society for criminology ISC held at Chuo University Tokyo it was the very first time such an ISC meeting was held in Asia and this meant that finally a relatively large number of Japanese and other Asian participants were able to express their views on criminal policy and crime prevention in urban

centres all over the world crime in urban communities is not an exclusively western phenomenon but it is also a considerable problem in other parts of the world this makes an interchange of ideas between western eastern and third world criminologists particularly important general characteristics of the urban communities that suffer from a high crime rate are ethnic and racial tensions a mix of old housing areas and new business districts a prevailing sense of anonymity slums and juvenile delinquency the existence of these general characteristics besides mutual differences makes cooperation in the crime prevention sphere definitely worth the effort

key resolutions from the first fifty years of the united nations general assembly

the only dictionary available focusing on uk law enforcement this invaluable volume covers every aspect of criminal law including pathology forensic medicine commerce and trade criminology and psychology essential reference for trainee and practising police officers and other professionals needing clear definitions of law enforcement terms

a book to help law enforcement professionals and their families survive the hidden dangers traumas and stresses of a career in law enforcement

style law enforcement officials

most people assume that being a cop is like what they see on tv they think it s a high drama fast paced career with car chases and gunfights the reality isn t quite so intense law enforcement is a dangerous profession but the majority of police work is pretty dull police work is mostly a compilation of speaking with people who don t want to speak with you or who are distraught over why they need to speak to you in the first place there are

gunfights swat calls car chases robberies in progress and several other calls that raise the blood pressure but by in large the majority of police work is responding to late reports and recording what happened in an objective chronological and accurate way just like with the work people often have a misconception about the types of people who become cops they think that only people with extreme personalities can be police officers when really the exact opposite is true most cops are normal blue collar workers who share a common set of core principles they re all honest hard working brave and logical people who have good intentions but who sometimes enter into a law enforcement career without understanding what law enforcement is all about i wrote this book because i ve seen too many people get into police work without understanding what it is they start their careers with noble intentions only to be torn down and destroyed from the stress of the job or their own failed ambitions police work isn t necessarily difficult but it carries a large amount of responsibility the weight of that responsibility is too much for some people and it s misunderstood by others this book is a complete guide to understanding what the job is as a police officer it will tell you what it means to be a cop as well as how to be successful at modern policing it breaks down your responsibilities in ways that remove any confusion and it ll prepare you for what you should do in any given situation i wrote this book using basic direct language so it s impossible to misinterpret it s a book written by a cop for cops this book is specifically aimed at educating new cops or anyone who s considering a career in law enforcement but with that being said it s also extremely beneficial for veteran police officers as a means of strengthening their skills and helping them transition from being an average cop into being a consummate professional the skills and insights i share throughout this book are pieces of information that can create a foundation for new officers or sharpen pre existing but as of yet unrealized potential in veterans the subjects covered in this book were specifically chosen for inclusion because they re the most germane to success in law enforcement examples of the topics covered in this book include officer safety departmental perception gaining voluntary compliance criminal interdiction interview and interrogation and critical incidents i ve also added in a few chapters about how to get hired as a cop and how to promote once you ve started working so you can increase your likelihood of rising to the position that you want within your department i ve learned throughout my career that police work is less about protecting and serving and more about doing your job reliably without making waves or opening your department up to liability that s the kind of information i ll teach you throughout this book it s the kind your agency won t come out and say but it s the most important information you could know to be successful in law

enforcement reading this book will give you a safeguard against poor training it will keep you from becoming a departmental scapegoat if you are unlucky enough to have substandard training officers to be a cop is to be the vanguard of your community thank you for considering a career in law enforcement i look forward to the honor of teaching you how to do the job

introduction to law enforcement an insider's view 5th edition is a very unique textbook it draws upon the author's dual set of experiences as a member of the academic world and also as a sworn police officer the author dr william g doerner has been a faculty member in the college of criminology and criminal justice at the florida state university one of the premiere programs in the country since 1977 he retired from active duty with the tallahassee police department after 29 years of service as a part time sworn law enforcement officer balancing these two perspectives enables readers to peek into the law enforcement world through the eyes of a cop and the mind of a professor the book is divided into four major units the first part the context of law enforcement helps the reader assemble a picture of how this formal institution came into being recognize some of the more prominent issues that surfaced with this new arrangement assess various reform efforts and understand how agencies are structured the second portion behind the badge explores what it takes to become a police officer topics here range from how agencies select candidates from the applicant pool what recruits experience during the police academy and rookie training phases as well as lessons in criminal law search and seizure and interrogation standards the next segment focuses on how officers work the streets the emphasis here is on the decision making processes that surround the arrest option and reliance upon the use of force the final part trails officers after they complete their tours of duty and are off the streets it raises questions about whether law enforcement is as stressful as some portray it the adjustments officers must make in their personal and occupational lives the perennial question of who polices the police and whether policing is a profession or simply another job the author has compiled a distinguished career in both law enforcement and academia in addition to being decorated for meritorious service and honored by his agency as officer of the year dr doerner also served two terms as the editor of the american journal of criminal justice the southern criminal justice association bestowed its criminal justice educator of the year award on him in recognition of his accomplishments in teaching research and service in addition the american society of victimology selected professor doerner as the recipient of its 2009 john p j dussich award which recognizes excellence in research

and the provision of services to crime victims over a substantial length of time an article examining accreditation patterns among florida municipal police agencies published with his son who holds a doctorate in economics recently won accolades for its incisive insights from the editors at policing an international journal of police strategies management

click additional materials for downloadable samples although there is a plethora of studies on crime and punishment law enforcement is a relatively new field of serious research when courts sentencing prisons jails and other areas of the criminal justice system are studied often the first point of entry into the system is through police and law enforcement agencies unfortunately understanding of the important issues in law enforcement has little general literature to draw on currently available reference works on policing are narrowly focused and sorely out of date to this end a distinguished roster of authors representing many years of knowledge and practice in the field draw on the latest research and methods to delineate describe and analyze all areas of law enforcement this three volume encyclopedia of law enforcement provides a comprehensive critical and descriptive examination of all facets of law enforcement on the state and local federal and national and international stages this work is a unique reference source that provides readers with informed discussions on the practice and theory of policing in an historical and contemporary framework the volumes treat subjects that are particular to the area of state and local federal and national and international policing many of the themes and issues of policing cut across disciplinary borders however and several entries provide comparative information that places the subject in context key features three volumes cover state and local federal and international law enforcement more than 250 contributors composed over 400 essays on all facets of law enforcement an editorial board made up of the leading scholars researchers and practitioners in the field of law enforcement descriptions of united states federal agency law enforcement components comprehensive and inclusive coverage exploring concepts and social and legal patterns within the larger topical concern global multidisciplinary analysis key themes agencies associations and organizations civilian private involvement communications crime statistics culture media drug enforcement federal agencies organizations international investigation techniques types of investigation investigative commissions law and justice legislation legal issues military minority issues personnel issues police conduct police procedure policing strategies safety and security specialized law enforcement agencies tactics terrorism victims witnesses editors marie simonetti rosen dorothy
