the scholarship exhibited here is not only superior it is in many ways staggering the author s control of an astonishing range of primary and secondary texts from many languages eras and disciplines is awe inspiring this is a learned original and important work robert goldman sanskrit and india studies university of california berkeley

already acknowledged by metacritic and the guinness world records as the highest rated series in the history of television breaking bad has elicited an unprecedented amount of criticism writers both popular and academic columnists as well as eager commenters have addressed every imaginable topic from the

show s characterization and major scenes to fine details such as walt s knack for picking up habits from those he kills and the symbolism inherent within the cars that characters own this book considers another perspective one relatively unexplored to date by considering the series from the perspective of its interior spaces two possibilities emerge firstly the spaces become a tangible record of their characters inner lives one that provides something like an objective correlative or photographic negative of their thought processes and approach to the world they provide more and richer ways to trace the course of character action and themes throughout the series secondly breaking bad s spaces are not simply acted upon or within they interact with characters as well interpreted through the theories of judith butler michel de certeau and many others the series homes labs rvs and elevators take on new significance the collection plumbs the interior spaces of breaking bad from many angles ultimately these diverse perspectives enrich an appreciation for the series and its innovative handling of interiors both literal and metaphorical they also suggest new ways of reading the series ensuring it can continue to be explored by academics students and fans well into the future

international interdisciplinary journal discussing the relations between society and space space is broadly conceived from landscapes of the body to global geographies from cyberspace to old growth forests as metaphorical and material as theoretical construct and empirical fact covers both practical politics and the abstractions of social theory
