plato five dialogues euthyphro apology crito meno phaedo plato was a philosopher in classical greece and the founder of the academy in athens the first institution of higher learning in the western world he is widely considered the most pivotal

figure in the development of philosophy especially the western tradition unlike nearly all of his philosophical contemporaries plato's entire work is believed to have survived intact for over 2 400 years others believe that the oldest extant manuscript dates to around ad 895 1100 years after plato's death this makes it difficult to know exactly what plato wrote along with his teacher socrates and his most famous student aristotle plato laid the very foundations of western philosophy and science alfred north whitehead once noted the safest general characterization of the european philosophical tradition is that it consists of a series of footnotes to plato in addition to being a foundational figure for western science philosophy and mathematics plato has also often been cited as one of the founders of western religion and spirituality plato's influence on christianity is often thought to be mediated by his major influence on saint augustine of hippo one of the most important philosophers and theologians in the foundation of the western thought in the 19th century the philosopher nietzsche called christianity platonism for the people numenius of apamea viewed this differently he called plato the hellenic moses this would justify the superiority of christianity over hellenism because moses predates plato thus the original source of this wisdom is the root of christianity and not hellenistic culture 12 plato was the innovator of the written dialogue and dialectic forms in philosophy plato appears to have been the founder of western political philosophy with his republic and laws among other dialogues providing some of the earliest extant treatments of political questions from a philosophical perspective plato's own most decisive philosophical influences are usually thought to have been socrates parmenides heraclitus and pythagoras although few of his predecessors works remain extant and much of what we know about these figures today derives from plato himself

the five dialogues of plato translated into english with analyses and introductions by b jowett m a the third edition the text which has been mostly followed in this translation of plato is the latest 8vo edition of stallbaum the principal deviations are noted at the bottom of the page i have to acknowledge many obligations to old friends and pupils these are mr john purves fellow of balliol college with whom i have revised about half of the entire translation the rev professor campbell of st andrews who has helped me in the revision of several parts of the work especially of the theaetetus sophist and politicus mr

robinson ellis fellow of trinity college and mr alfred robinson fellow of new college who read with me the cratylus and the gorgias mr paravicini student of christ church who assisted me in the symposium mr raper fellow of queen s college mr monro fellow of oriel college and mr shadwell student of christ church who gave me similar assistance in the laws dr greenhill of hastings has also kindly sent me remarks on the physiological part of the timaeus which i have inserted as corrections under the head of errata at the end of the introduction the degree of accuracy which i have been enabled to attain is in great measure due to these gentlemen and i heartily thank them for the pains and time which they have bestowed on my work i have further to explain how far i have received help from other labourers in the same field the books which i have found of most use are steinhart and muller s german translation of plato with introductions zeller s philosophie der griechen and platonische studien susemihl s genetische entwicklung der platonischen philosophie hermann s geschichte der platonischen philosophie bonitz platonische studien stallbaum s notes and introductions professor campbell s editions of the theaetetus the sophist and the politicus professor thompson s phaedrus th martin s etudes sur le timee mr poste s edition and translation of the philebus the translation of the republic by messrs davies and vaughan and the translation of the gorgias by mr cope

by far the most definitive version of the dialogues complete student edition the five dialogues of plato complete version with introductions the five dialogues of plato translated by benjamin jowett introduction benjamin jowett amaylisis by benjamin jowett i cannot agree with mr grote in admitting as genuine all the writings commonly attributed to plato in antiquity any more than with schaarschmidt and some other german critics who reject nearly half of them the german critics to whom i refer proceed chiefly on grounds of internal evidence they appear to me to lay too much stress on the variety of doctrine and style which must be equally acknowledged as a fact even in the dialogues regarded by schaarschmidt as genuine e g in the phaedrus or symposium when compared with the laws he who admits works so different in style and matter to have been the composition of the same author need have no difficulty in admitting the sophist or the politicus the negative argument adduced by the same school of critics which is based on the silence of aristotle is not worthy of much

consideration for why should aristotle because he has quoted several dialogues of plato have quoted them all something must be allowed to chance and to the nature of the subjects treated of in them on the other hand mr grote trusts mainly to the alexandrian canon but i hardly think that we are justified in attributing much weight to the authority of the alexandrian librarians in an age when there was no regular publication of books and every temptation to forge them and in which the writings of a school were naturally attributed to the founder of the school and even without intentional fraud there was an inclination to believe rather than to enquire would mr grote accept as genuine all the writings which he finds in the lists of learned ancients attributed to hippocrates to xenophon to aristotle the alexandrian canon of the platonic writings is deprived of credit by the admission of the epistles which are not only unworthy of plato and in several passages plagiarized from him but flagrantly at variance with historical fact it will be seen also that i do not agree with mr grote s views about the sophists nor with the low estimate which he has formed of plato s laws nor with his opinion respecting plato s doctrine of the rotation of the earth but i am not going to lay hands on my father parmenides soph who will i hope forgive me for differing from him on these points i cannot close this preface without expressing my deep respect for his noble and gentle character and the great services which he has rendered to greek literature

why does plato write dialogues why more than one the temporality of human excellence begins with a brief introductory consideration of these questions and concludes with a suggestion about two things the intent of his use of this form and the manner of its concrete realization in a set of two dozen or so dialogues taking up each dialogue as a separate drama the reading seeks to focus attention on how each by its characters their interplay and conversation and the apparent lack of positive issue to the discussion they engage in contributes to a sketch of human excellence as a complex power developed and grown into as consummation in the maturing over time of a human being

excerpt from five dialogues of plato bearing on poetic inspiration plato wrote no systematic treatise on philosophy not because he was not a systematic thinker all his writings are expressions of a single outlook on reality a system which though

it may perhaps show signs of development yet always preserves its unity but he expounded it in a series of dialogues each of which stands by itself complete in each some separate aspect of life or reality some separate problem for thought to unravel is the starting point and centre of the discussion only the solutions have a common unity for all these various problems when discussed lead the inquiry back to a conception of the relation between sense and thought which is the centre of plato s philosophy the five dialogues in this volume however have been brought together because they all throw some light on a special side of plato s teaching his doctrine of the place and importance of intuition or inspiration however we describe that immediate element in thought which can be distinguished from that other element which is teachable and reducible to rules in each of these dialogues though for different purposes and from different points of view plato expounds that part of his system which has attracted the attention and admiration of great poets and lovers of poetry and which when developed by later thinkers who lacked plato s devotion to exact logical thinking and his interest in science proved the source of much later mysticism as plato wrote no systematic treatise on philosophy so he wrote no aesthetic but these dialogues present the materials for a platonic aesthetic or rather for an aesthetic in accordance with the general principles of platonic philosophy but which plato himself would probably have disowned about the publisher forgotten books publishes hundreds of thousands of rare and classic books find more at forgottenbooks.com this book is a reproduction of an important historical work forgotten books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy in rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition we do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works
