the fourth edition of mccormac s bestselling textbook design of reinforced concrete continues the successful tradition of earlier editions by introducing the fundamentals of reinforced concrete design in a clear and understandable manner

the fourth edition of jack mccormac s textbook design of reinforced concrete continues the successful tradition of earlier editions by introducing the fundamentals of reinforced concrete design in a manner that stimulates interest in the subject known for its clear explanations the book is especially appropriate for students just beginning their study in reinforced concrete the new edition has been updated to reflect the changes in the 1995 aci building code and the chapters on beam columns have been improved as a result new homework problems have been added throughout the text as with the previous edition the text comes with a windows based software package which features many challenging reinforced concrete exercises that allows students to change problems and still obtain immediate answers

surveying sixth edition is designed to cover the standard topics in a basic surveying course in a streamlined manner meeting the learning needs of today's student. This text provides comprehensive yet concise coverage of the essential skills necessary in surveying and civil engineering such as measurement, distance corrections, leveling, angles, area computation, computer calculations, topographic surveying, electronic distance measuring instruments, and construction surveying. The text includes photos and diagrams, lists of useful addresses, and degree programs. Surveying tables and formulas are new. Co-authors Wayne A. Sarasua and William J. Davis bring a fresh perspective to this classic text. This text is suitable for students in a one-semester course at two- and four-year colleges taking their first course on surveying.

This volume draws skill criteria from over 35 different careers including architecture, construction, retail sales, management, and others, and explains each skill and examines corresponding examples.

Includes entries for maps and atlases.
