written in non technical language this book helps the reader understand the basic nature and causes of cancer as well as the principles underlying current strategies for cancer prevention and treatment by presenting an overview and perspective of both the basic and practical aspects of cancer including the background needed to understand continuing advances in the field the book is fascinating reading and an ideal book for everyone interested in the subject

scientists are testing an arsenal of drugs that could prove to be the most potent weapons in the fight against cancer chemopreventive drugs that can actually stop the cancer process from starting in this urgent yet immensely hopeful book two highly respected physicians one of them a cancer survivor herself report on the recent dramatic breakthroughs in combating the disease that now ranks as our nation's #1 killer and they outline an exclusive 7 step plan for reducing one's cancer risk whether the goal is to avoid ever getting cancer to arrest precancerous changes or to prevent a recurrence people will turn to this book for news they can use

when the woman he loved was diagnosed with a metastatic cancer science writer george johnson embarked on a journey to learn everything he could about the disease and the people who dedicate their lives to understanding and combating it what he discovered is that a revolution is now under way an explosion of new ideas about what cancer really is and where it comes from he combs through the realms of epidemiology clinical trials laboratory experiments and scientific hypotheses to reveal what we know and don't know about cancer showing why a cure remains such a slippery concept his luminous accounts describe tumors that evolve like alien creatures inside the body paleo oncologists who uncover petrified tumors clinging to the skeletons of dinosaurs and ancient human ancestors and the surprising reversals in science's comprehension of the causes of cancer with the foods we eat and environmental toxins playing a lesser role perhaps most fascinating of all is how cancer borrows natural processes involved in the healing of a wound or the unfolding of a human embryo and turns them against the body throughout his pursuit johnson illuminates the human experience with elegiac grace bearing witness to the punishing gauntlet of consultations surgeries targeted therapies and other treatments provocative and intellectually vibrant the cancer chronicles will challenge everything you thought you knew about the disease and provide hope for tomorrow and the future

this book is designed to support people like veronica who become unwell and are diagnosed as having cancer in this story veronica visits her gp who refers her to a hospital consultant she has a chest x ray and then is admitted to hospital for an operation after the operation the consultant tells veronica that she has cancer but that it's not all bad news some cancers can be cured she goes on to receive radiotherapy and then chemotherapy sessions after the chemotherapy has finished veronica feels better she is glad the treatment is finished she hopes the cancer is cured the story is divided into different sections highlighting the different experiences that cancer patients may have

navigating the tumultuous waters of cancer treatment and decision making is difficult for all patients it is also difficult for doctors and other medical personnel this books deals with a variety of emotion related and ethics issues that form much of the basis of the world of cancer related medicine the responsibilities of the physician relative to truth full disclosure patient autonomy death and dying physician assisted suicide and suicide in general among cancer patients these and many other matters are discussed using real stories from the author s extensive personal career in working with cancer patients and their families this is not a book on treating cancer but instead is a work that seeks to stimulate a dialog about these issues as well as the spiritual aspects of hope and other factors relating to the plight of cancer patients and their families written for health care professionals and cancer victims and their families alike the core of the book centers around questions of medical ethics doctor patient relationships decision making during cancer treatment from medical and patient points of view given the emotional commitment and energy level required to work with cancer patients in a moral and ethical manner medical students and residents will ask themselves do i really want to be a cancer physician can i handle the ups and downs of treating people who may or may not be destined to fight and lose the battle against this strong nemesis how will i answer the tough questions regarding medical approaches to cancer how will i respond to patients who indicate a desire to commit suicide or request my help in doing so what can i tell families whose loved one is choosing treatments that will not help and will deteriorate his quality of life basing his responses on the oath of hippocrates the author illustrates how adaptable this oath actually is when considering the secular society in which we function the cancer experience instructs doctors medical students and health care workers involved in cancer care on the proper role of medicine the role of the doctor and the opportunities for connecting with patients as they help them make decisions regarding

treatment and end of life issues it helps patients understand the issues facing doctors as they assist them care for them and try to maintain both close personal relationships but enough emotional and professional distance in order to protect themselves from the stress and strain when medicine fails and patients must face the hardest choices here the author promotes a return to traditional medical values that promote closer doctor patient relationships in an effort to promote trust civility and partnership

the cancer guide is a definitive and inspirational book designed to help patients partners family and work colleagues navigate the trials and difficulties associated with cancer and its treatment with over forty years worth of experience to her name o dwyer writes about cancer with humanity and clarity helping to combat the myths and misinformation surrounding the disease in an age of information overload adopting an integrated biological and psychological perspective o dwyer highlights the person at the heart of every treatment providing helpful advice and shared experiences that are able to destigmatize the shame fear and denial faced by those affected by cancer the cancer guide is an empowering and informative book for all those whose lives and loved ones have been touched by cancer

the cancer solution taking charge of your life with cancer by jack c westman m d shows how much of the failure of the war on cancer and more importantly much of the potential for finally winning it has to do with the definition of cancer this book is a wake up call and a call to action for cancer patients their loved ones and the general public conventional cancer care needs to be vastly improved according to the american society of clinical oncology and the national cancer institute patients know it firsthand they are obliged to accept chances for 5 year survival with likely debilitation rather than complete remissions cures everyone is paying the price of excessive cancer care costs in their health care insurance publisher description

the book you can trust to support you at every stage of your treatment and beyond winner of best popular medicine book bma medical book awards 2019 professor trisha greenhalgh an academic gp and dr liz o riordan a consultant breast cancer surgeon are not only outstanding doctors but they have also experienced breast cancer first hand the complete guide to breast cancer brings together all the knowledge they have gathered as patients and as doctors to give you and your family a trusted thorough and up to date source of information designed to empower you during your breast cancer treatment it covers simple explanations of every breast cancer treatment coping with the emotional burden of breast cancer frank advice about sex and relationships staying healthy during and after treatment dealing with the fear of recurrence living with secondary breast cancer packed full of all the things the authors wished they d known when they were diagnosed and tips on how to cope with surgery radiotherapy chemotherapy and beyond this is the only book you need to read to guide you through your breast cancer diagnosis a much needed guide which is both humane and based on robust evidence macmillan cancer support

praise for the cancer treatment revolution a wonderful journey through modern medical science told with warmth and insight brought to life through the stories of people confronting cancer this book will inspire and educate both laymen and caregivers jerome groopman m d author of the measure of our days and the anatomy of hope and recanati professor harvard medical school this is probably the best book on cancer that exists beautifully written and unfailingly interesting conveying a clear sense of hope for cancer patients and survivors cancer treatment has come a long way but not without intense struggles and passions which david nathan narrates from the inside as one of the leading players he explains cancer more clearly than anyone else and his portraits of great cancer doctors are sharp and unforgettable a contribution to history richard preston author of the hot zone and the demon in the freezer no one is better positioned to tell the tale of the cancer treatment revolution of the last half century than david nathan a brilliant physician scientist he has been present at the cusps of history in this life and death field the story he tells here is fascinating and his book is captivating atul gawande m d author of complications a surgeon s notes on an imperfect science and better a surgeon s notes on performance and assistant professor of surgery harvard medical school david nathan is a true storyteller in the cancer treatment revolution he tells stories that bridge cancer patients and cancer research as few others could these gripping tales will be appreciated by those who live with cancer and those who strive to create new therapies thomas cech ph d recipient of the 1989 nobel prize in chemistry and president of the howard hughes medical institute david nathan one of the nation s preeminent clinician scientists tells the stories of three cancer patients revealing compelling human facets the dedication of the remarkable teams that care for these patients and even more the bravery and fortitude of the patients and their families harold varmus m d recipient of the 1989 nobel prize in medicine president of the memorial sloan kettering cancer center and former director of the national institutes of health engaged by the compelling triumphs and tragedies of patients whose normal lives are inevitably altered by a life threatening cancer the reader of the cancer treatment revolution will easily appreciate the impact of the new cancer diagnostics and therapies compared to even relatively recent cancer treatments karen antman m d dean boston university school of medicine this personal highly readable account by one of the leaders of the cancer treatment revolution explains how the revolution has come about and how it will change the future sir paul nurse ph d president of rockefeller university and recipient of the 2001 nobel prize in medicine

the cancer handbook provides a comprehensive overview of scientific and clinical information in cancer research and medicine oncology this area is one of the most intensively studied in biology and medicine resulting in a huge amount of new information being published every year

in the human side of cancer jimmie c holland m d explores the broad range of emotions people with cancer and their loved ones experience from the moment of diagnosis through the treatment and its aftermath for more than twenty years dr holland has pioneered the study of

psychological problems of cancer patients and their families whom she calls the real experts in the human side of cancer she shares what she has learned from all of them about facing this life threatening illness and what truly helps along the cancer journey this book is the next best thing to sitting in dr holland s office and talking with her about the uncertainty and anxiety elicited by this disease and it is a book that inspires hope through stories of the simple courage of ordinary people confronting cancer offering the latest scientific information about the mind body connection and cancer dr holland dispels the countless myths surrounding this controversial subject including the notion that a person with cancer is somehow to blame for getting the disease or for not getting better dr holland disputes the current one size fits all approach to coping with cancer based on her experience that everyone has a unique way of coping which should be respected she also provides the latest information on medicine that doesn t come in a bottle counseling support groups meditation and other coping strategies that can help this book imparts dr holland s message of common sense and caring the human side of cancer provides practical and compassionate guidance for dealing with a diagnosis of cancer and its uncertainties societal myths and beliefs that may make coping more difficult cancer treatment and its aftermath life after a cancer cure illness when comfort replaces cure as a goal issues for families including grief

do you want a clear in depth guide on astrology and how it shapes our connections the cancer book everything you should know about cancers provides a warm down to earth look at this zodiac sign s biggest strengths challenges and hidden gifts written in plain language it covers emotional insights caring bonds with loved ones and realistic ways to handle daily life inside you will discover how this cancer sign can bring comfort to families spark creativity and encourage loyalty whether you are exploring your own birth date or curious about a friend this book is packed with wisdom and practical advice it even delves into relationships home life and professional pursuits so you can make the most of these heartfelt qualities you ll enjoy simple explanations of key traits and behaviors tips for building stronger bonds and deepening emotional awareness clear guidance for handling stress self care and personal growth real life examples from notable figures who share these qualities if you ve ever wanted a friendly road map to better understand this zodiac sign now is your chance read the cancer book everything you should know about cancers and see how empathy and resilience can elevate your life and those around you grab your copy today to begin your journey of emotional insight nurturing relationships and everyday success
