the biohistory of feminism is a multilayered project that incorporates evolutionary biology to argue that behaviors labelled feminist by human cultures are already found in nature and that there is no one path to being female on a planet where asexual reproduction dominates intersex and parthenogenesis exist and eusocial females contribute to their colonies without reproducing being female goes beyond motherhood stereotypes dear to those who attempt to perpetuate a universal idea of male dominance in human history feminism exists naturally as a series of efforts to express oneself in a multiplicity of ways freely chosen including the attainment of alpha status as a social animal managing resources and forming alliances elephant matriarchs and alpha female bonobos were there among social animals before the appearance of human monarchs like wu zetian and contemporary politicians like angela merkel and cultural leaders like wangari maathai female dolphins and chimpanzees taught cultural traditions before the intellectual achievements of literary figures like sor juana inés de la cruz and scientists like jane goodall the diversity of female expression in nature is natural

this book explores the role of science in the short stories of machado de assis focusing on works such as o alienista 1882 a sereníssima república 1882 and idéias de canário 1899 it examines how machado uses scientific theories as literary and sociological devices to critique modern state institutions including hospitals prisons and government sponsored medical projects his scepticism extends to the liberal and politically independent scientific discourse of late nineteenth century brazil a period of profound political economic and social change by questioning the idealized figure of the rational scientist machado exposes the racial and economic hierarchies upheld by the dominant intelligentsia madness egocentrism and the

use of fantastic elements such as talking animals and absurd situations engage with the ancient tradition of the fable to highlight social tensions the result is an ethically charged poetics of unreason shaped by an ironic scepticism toward romantic nationalism literary naturalism and scientific positivism particularly in relation to race gender class and nationality perfect for scholars of literature history and cultural studies this book reinterprets machado de assis as a radical thinker whose fiction offers a penetrating critique of race gender and class in the making of modern brazil it can also serve as an initial study for many interdisciplinary interpretations of his work opening new perspectives on his engagement with science and politics
