general omar bradley was the premier us army tactical commander in the european theatre of operations in 1944 45 a west point classmate of dwight eisenhower bradley was the quintessential us field commander of world war ii elevated to high command with little combat experience but a solid track record as a skilled planner and organiser bradley was part of a small cadre of highly skilled young officers groomed for higher command in the austere and bankrupt 1930s bradley was at the centre of nearly all the major us army victories in 1944 45 from d day through the final push into germany along with that combat record came a string of controversies bradley s greatest blunder failing to anticipate the german offensive in the ardennes was counter balanced by a vigorous and skilled response which fatally injured the german army in the west beyond the performance of the us army in the eto bradley was also intimately wrapped up in other controversies especially the internecine squabbles with his british counterpart bernard montgomery

a complete examination of patton s campaign to take the fortified city of metz general george patton s most controversial campaign was

the series of battles in autumn 1944 battles along the german frontier which centered on the fortified city of metz in part the problem was logistics as was the case with the rest of the allied forces in the european theatre supplies were limited until the port of antwerp could finally be cleared also problematic was the weather the autumn of 1944 was one of the wettest on record and hardly conducive to the type of mechanized warfare for which patton was so famous however at the heart of the problem was the accretion of sophisticated fortifications metz had been fortified since ancient times heavily rebuilt by france in the post napoleonic period modernized by germany in 1870 1914 and modernized by france during the maginot effort in 1935 40 the germans hoped to hold metz with a thin screen of second rate troops counting on the impregnable fortifications this book covers the entire campaign from beginning to end offering an unbiased assessment of the success and failures of both the allied and axis efforts

in 1945 with her fleet destroyed and her armies beaten the only thing that stood between japan and an allied invasion was the numerous coastal defence positions that surrounded the islands this is the first book to take a detailed look at the japanese home island fortifications that were constructed during 1941 45 utilizing diagrams specially commissioned artwork and sources previously unavailable in english steven zaloga examines these defences in the context of a possible allied invasion constructing various arguments for one of the greatest what if scenarios of world war ii and helping to explain why the americans decided to go ahead with a nuclear option

examining how the city of cardiff has managed to transform itself in recent years this book analyses the way in which its local

governments have promoted an economic social cultural physical and environmental transformation through a wide range of policy initiatives and partnerships with governments agencies and enterprises

dwight eisenhower represented a fundamentally new type of modern military commander eisenhower was a manager commander whose grasp of the politics and large scale tactics of battle were uniquely suited to leading the huge coalition of forces that fought in europe during the second world war educated at west point eisenhower rose to his position as supreme commander of the allied expeditionary force through a series of powerful contacts and his natural aptitude for leadership and large scale tactical planning this book analyses how eisenhower s tactics and political astuteness helped him successfully lead the invasion of europe how he coaxed contradictory parties into supporting his policies and how he triumphed in his now infamous clash with montgomery uniquely the author goes on to describe how eisenhower s military influence continued when he became president as his leadership and vision were tested by the outbreak of the cold war
