this volume explores innovations in journalism the goals and expectations associated with them promoting and hindering framework conditions and their social and industrial impact drawing on an international research project conducted in germany austria switzerland spain and the united kingdom the book takes a complex approach considering media policy preconditions and the social impact of journalistic innovation from a comparative perspective the key findings are examined and presented on different levels theoretical methodological and as the focus empirical having identified the most relevant innovations in each of the five countries a total of 100 case studies are examined to explore the influence of these innovations on the quality of journalism and its normative role in democratic societies and to analyze which preconditions support or inhibit the development and implementation of the innovations in news organizations the interdependencies between journalistic innovations and their media policy preconditions are compared in a system analytical way concluding with the lessons that can be learned from the macrolevel policies and the mesolevel organizations this insightful and truly

international volume will interest professionals scholars and students of journalism media and communication studies media industry studies and related fields the open access version of this book available at taylorfrancis com has been made available under a creative commons attribution non commercial no derivatives cc by nc nd 4 0 license

cooperation and clusters have become the guiding paradigms for explaining and promoting regional competitiveness but the cooperation process between firms and universities and the transfer of knowledge in guiding and nurturing regional competitiveness has received relatively little attention this book strives to fill this gap in highlighting the connection between inter firm cooperation in regional clusters innovation and regional networks and the role of universities in them it goes beyond the traditional economic approach of clusters and includes soft factors in the explanation of regional competitiveness and connects the literature on clusters to the literature of learning and knowledge creation as sources of regional competitiveness it aims to foster an international and interdisciplinary exchange of perspectives by presenting current developments case studies best practices as well as new integrated theoretical approaches and applications

published to coincide with the fourth united nations environmental assembly un environment s sixth global environment outlook calls on decision makers to take bold and urgent action to address pressing environmental issues in order to protect the planet and human health by bringing together hundreds of scientists peer reviewers and collaborating institutions and partners the geo reports build on sound scientific knowledge to provide governments local authorities businesses and individual citizens with the information needed to guide societies to a truly sustainable world by 2050 geo 6 outlines the current state of the environment illustrates possible future environmental trends and analyses the effectiveness of policies this flagship report shows how governments can put us on the path to a truly sustainable future emphasising that urgent and inclusive action is needed to achieve a healthy planet with healthy people this title is also available as open access on cambridge core

by analysing the irish development strategy this book questions its much portrayed success the republic of ireland has followed an export oriented development path relying on foreign direct investment inflows as the main development agent however this chosen path of development has led to growing industrial social and developmental polarisations despite the indisputable impressive overall growth figures growth is primarily driven by the investing multinationals and the inequality of earnings have been exacerbated thus questioning the irish growth model s success

one of the fundamental challenges facing modern welfare states is the question of work family reconciliation an increasing share of mothers work but many european welfare states do not adequately support the dual earner model especially in southern europe after 2005 german policy makers transformed the nature of germany s family policy regime through a number of legislative measures whilst italy a country with many similarities witnessed little change using a multi methods approach this book addresses the puzzle of why germany was able to implement far reaching reforms in this policy area after a long impasse and italy was not as such it delivers a broad systematic account of these reforms and sheds light on why similar reforms were not also adopted in other similar welfare states at the same time more generally it contributes to understanding the determinants of

welfare policy change in modern european welfare states this text will be of key interest to scholars students and professionals working on topics linked to european politics welfare and work family policies comparative politics social policy and more broadly to political science and gender studies

meeting the societal effects of demographic change globalization digitization and growing social inequality requires collective action on the part of government civil society and the private sector but what do businesses offer in developing effective solutions to the challenges we face as a society the bertelsmann stiftung conducted global research on this question for the reinhard mohn prize 2016 the findings presented here are accompanied by contributions from experts on the role of business and entrepreneurship in society they examine how businesses are integrated into international networks and how they help advance society through social innovations as a contribution to debates on these issues this volume offers recommendations for a blueprint of responsible entrepreneurship and a policy framework designed to promote it

both europe and the us have now dampened the shrillness of the invective hurled against each other over the last years but the underlying differences have not been resolved the two sides drift apart in their views on what internal politics should achieve as well as in their vision of the global order they would like to see established the economies of both europe and the us are highly developed and densely interwoven their societies are post industrial many social and economic trends converge similar too are the challenges to maintain security against threats emanating from other parts of the world divergences thus do not originate from conflicting material interests they arise from different perceptions of the nature and of threats from the outside world from how the two societies wish to define themselves through their internal and external policies the search for a distinct european or american identity fuels this discord therefore appeals to common merely material interests will not obliterate it the contributions to this book come from altogether twelve authors each of them addressing the issues from the perspective of his or her own discipline the book aims to reach not just academia but also beyond to those that are involved in actual international decision making

this book examines the various strategies including global counterinsurgency gcoin which have been put forward as alternatives to the global war on terror gwot concluding that while a consensus can be found on the key elements of a grand strategy based on failures in the gwot it is far from clear if any gcoin strategy could work
