eursafe2024 back to the future sustainable innovations for ethical food production and consumption

European states have embarked on the long road to rebuilding their defence capabilities after decades of underinvestment in the armed forces and the defence industrial base the challenges are significant however since Russia's full scale invasion of Ukraine in February 2022 NATO countries have committed to ambitious readiness and war fighting plans against this background this IISS strategic dossier evaluates key areas for building defence capabilities in Europe including recent developments in the transatlantic defence ecosystem defence spending defence industrial production capacity building more resilient forces and improving supply chain security Europe's ability to meet its NATO commitments will depend on the degree to which it manages to address these important issues the analysis covers the trend of increased defence spending by most European NATO members and the growth in defence production capacity in important capability areas it also provides insights into the ways in which various European countries have sought to address their recruitment and retention challenges the volume discusses other ongoing challenges including uncertainty over the long term affordability sustainability and effectiveness of increased defence spending in Europe in addition the dossier highlights the requirement for long term government investment as well as firm demand signals in order to sustain increased defence production this IISS strategic dossier was produced in the context of the IISS Prague Defence Summit PDS 2024 which has been supported by the government of the Czech Republic

exploring the sustainability development goal for responsible consumption and production this volume provides insights from the performing arts festivals and events film industry and fashion sectors with a variety of examples and case studies contributors illuminate the political and social importance of the creative and cultural industries in driving sustainable transitions the influence of policy funding and international standards are also considered alongside other key themes such as social entrepreneurship the post growth economy and the importance of overcoming barriers to equity equality and social justice alongside a sister publication responsible consumption and production in the creative and cultural industries this edited book explores how creative and cultural organisations embrace the challenge of sustainable development highlighting best practice across geographic and cultural contexts the result is a comprehensive overview that is valuable reading for research policy and practice

this book explores the regulation of sustainable finance within the european union examining its background and development at a practical level it begins by providing a concise overview of the key events and strategies that have shaped the eu s sustainable finance landscape including the paris agreement the 2018 action plan the renewed strategy and esma s roadmap furthermore it elaborates on the regulations tools and standards encompassed by the sustainable finance framework all of which are founded on this overarching strategy the core of the book focuses on how six countries estonia spain germany the netherlands italy and israel have adapted and implemented these regulations it highlights the unique strategies and perspectives each country brings to the global sustainable finance landscape the book concludes with a cross country analysis comparing the regulatory approaches and examining key dimensions like adoption implementation social inclusion and enforcement challenges

this comprehensive companion reviews the diverse challenges and successes faced by the g7 members over the last 50 years and assesses the uncertain future of the organisation using a diverse range of methodologies analytical work and personal perspectives it discusses how the g7 has been an important actor in terms of policy coordination responding to global crises and attempting to mitigate problems in developing countries

the fifth volume in the european public investment outlook series explores how europe can drive structural transformation through strategic public investment reflecting on the lessons from the 2008 2020 polycrisis and recent economic challenges this timely book examines fiscal policy s role in both stabilization and long term economic development part i state of the art reviews current public investment and industrial policies in major european economies including france germany italy and spain it provides detailed analyses of each country s approach to fostering structural transformation through public investment part ii challenges addresses the diverse obstacles and opportunities facing europe s industrial policy it emphasizes a multidimensional strategy to overcome bottlenecks in key sectors and drive transformation topics include the role of industrial policy in the green transition creating a cohesive strategy for europe enhancing economic security trends in european union defence spending sustainable mobility and financing structural investment beyond 2027 this volume is essential reading for researchers economists and policymakers focused on understanding and implementing effective public policy in europe and will further appeal to anyone interested in eu governance and public investment strategies more broadly

in times of crisis whether due to disasters armed conflicts or other health emergencies the timely and well coordinated evacuation of patients is a critical component of emergency response past emergencies have demonstrated the urgent need for standardized approaches to both pre hospital support for medical evacuation medevac and medevac operations themselves the absence of clear protocols coupled with delays miscommunication and inadequate care during transit can severely impact patient outcomes establishing standardized procedures ensures that medical evacuations are conducted safely efficiently and in coordination with the broader health care and emergency response system this guidance aims to provide a comprehensive framework for the safe and context adapted coordination clinical care operations support and logistics relevant to governments national authorities including ministries of health civil protection and civil defence national and international emergency medical teams emts nongovernmental organizations ngos emergency medical services ems and other key stakeholders operating in the medevac space or wishing to build this kind of capacity it defines minimum standards and recommendations for the development and classification of respective specialized care teams scts this is particularly relevant for contexts without pre existing or functional prehospital or medevac systems and can support country level capacity building regional and sub regional planning and the development of scts

this book contains qualitative research presented at the vi international scientific congress society of ambient intelligence 2023 isc sai 2023 the book represents a multifaceted collaboration between the scientific community and representatives of business industry the it sector and environmentalists the book addresses issues related to current research trends in the field of advanced technologies mechanical engineering engineering innovation environmental engineering and digital transformation of the economy which will draw attention to the processes and problems existing in the industrial sector the environment and the global economy

this is the first comprehensive practical handbook on the topic of environmental social governance esg and its impact on the real estate industry the sustainability megatrend is still in its early stages in the real estate sector and there is a lack of standards practical examples and data the development is very dynamic and sometimes confusing and new complex requirements and regulations are constantly being added the authors an expert team of economists lawyers investors asset managers and engineers provide an overview of national and european regulatory requirements as well as current market developments they show what role esg plays not only in the areas of new construction renovation and real estate management but also in investment processes and real estate valuations contents esg and the real estate market esg and regulatory environment esg and real estate management esg in urban and project development

this book looks into different aspects of implementing esg into real estate contracts from a european perspective it covers general aspects contract type specific aspects and then property usage type specific aspects general topics cover legal frameworks the social and governance perspective based on eu sustainable finance regulations contract type specific questions cover different contract types the team of authors then addresses specific issues relating to different types of property use such as office retail logistics hospitality and data centres the focus of the work is on eu so that the content can provide food for thought for the work in different eu countries the book thus supports practitioners in compiling their

personal toolkit for use in individual cases content terms concepts and basics of sustainability  
 csr and esg what esg in real estate contracts means standards for non financial sustainability  
 reporting csrd and esrs climate litigation energy and renewables data sustainability and  
 competition law brownfields pre contracts and recitals esg and real estate investment leases  
 real estate financing

the fourth book in the european public investment outlook series focuses on the urgent issue  
 of how to finance needed investment in critical tangible and intangible infrastructure given  
 high levels of public debt a thorny problem facing many governments across europe drawing  
 on expertise from academics researchers at public policy institutes and international  
 governance bodies the contributors analyse the current situation and prospects and propose  
 feasible solutions financing investment in times of high public debt offers a powerful  
 combination of high level analysis of cross continental policies and trends with close  
 examination of specific contexts in france italy germany and spain the chapters in part ii  
 explore challenges including how to finance climate investments the extent to which national  
 promotional banks can offer solutions eu budget reform and recent trends in tax  
 progressivity this book is essential reading for economists policymakers and anyone  
 interested in implementing and financing public policy in europe and wanting to better  
 understand the intricacies of eu governance and institutions

nanda i plus vereint zwei nach wissenschaftlichen kriterien entwickelte  
 pflegeklassifikationssysteme zu praxisorientierten pflegerischen leitlinien damit wird die
