this study is meant for institutional repository managers service providers repository software developers and generally all players taking an active part in the creation of the digital repository infrastructure for e research and e learning it reviews the current standards protocols and applications in the domain of digital repositories special attention is being

paid to the interoperability of repositories to enhance the exchange of data in repositories it aims to stimulate discussion about these topics and supports initiatives for the integration of and where needed development of new standards the authors also take a look at the nearby future which steps have to be taken now in order to comply with future demands

experience is a multilayered cumulative affair with transformation at its core its study a necessary first step for its translation requires an exploration of embodiment the senses and cultural and social environments the second of two volumes this book explores how artefacts as outcomes of experience brought about by the artist/translator perform semiotic work this semiotic work arises through the intervention of their makers but also through their viewers audience often through the latter's direct participation in the artefacts creation which we see as an open ended process drawing on diverse examples from across the world the chapters explore visual materiality the digital world and the multisensory nature of artefacts such as monuments festivals theatre performances artworks rituals the urban environment and human bodies the embodied perception of which may draw holistically or variously on the haptic olfactory auditory kinetic or kinaesthetic senses throughout the book experiential translation is framed as a political endeavour that allows experience to be shared across linguistic cultural generational or gendered divides in the form of artefacts that facilitate transformation and the acquisition of knowledge this book and its companion volume the experience of translation materiality and play in experiential translation include an international range of contributions from graduate students and early career researchers ecrs to tenured academics in translation studies comparative literature performance arts fine arts media and cultural studies as well as educators artists and curators it will be of particular interest to translators and arts practitioners scholars and researchers in the transdisciplinary field of humanities

chris crutcher is a literary icon in the field of young adult literature with his first book *Running Loose* published in 1983 crutcher established a reputation for giving young adults a voice in realistic fiction since then crutcher has written a number of books with spot on depictions of young adults growing through hard times including *Ironman* *Whale Talk* *Staying Fat for Sarah Byrnes* and *Stotan* in chris crutcher a *Stotan* for young adults bryan gillis and pam b cole examine the life career and works of this young adult advocate this volume opens with a never before published comprehensive portrait of the author's life gleaned from numerous conversations with crutcher the authors explore crutcher's

childhood his adolescent years his life as an adult and his career as a family counselor and examine how those experiences became fodder for his stories the authors also discuss crutcher s encounters with censorship and his philosophical stance gillis and cole also analyze crutcher s novels short stories and novellas examining his literary craft and such social themes as bigotry identity sexuality relationships and loss themes almost always positioned within a sports story the most comprehensive study of crutcher s life and work to date this book benefits tremendously from the cooperation of crutcher himself generally reserved about private matters crutcher talks candidly about his life and how his experiences helped shape his character and his stories his cooperative spirit gives voice to a book that will appeal not only to teachers and librarians but to students who have been enthralled by the works of this generous writer

preventable medical errors the role of different sciences in medical education and practice addresses the issues of staying up to date with evolving medical practices by providing practical examples linked to real world patient safety concerns and illustrating theoretical discussions with clear clinical practice scenarios the book is divided into two sections part 1 how did it come to this and part 2 where does it go from here which guide the reader through how we got here historically and how we can navigate our way out using the tools the author presents thus paving the way bridging a gap between theory and practice while emphasizing the importance of patient safety written for all medical professionals at the forefront of postmodern and scientific medical advancements to ultimately improve clinical outcomes and reduce preventable medical errors provides the reader information to provide medical care that substantially reduces the risk for preventable medical error and consequent patient harm presents a new set of tools more realistic of human biology extending sample based clinical research to patient centric rather than sample centric outcomes allows the reader to create learning tools and situations resulting in more robust medical decision making by physicians and clinicians

healthcare for all at affordable prices is still a major but universally elusive goal everyone spends money on healthcare and it is the most impoverishing consumption item thus most governments and the united nations promote universal health coverage each country s unique blend of tools for healthcare financing including taxes subsidies and market controls most people in low and middle income countries lmics have no health insurance of any kind and most lmic governments lack the political will information or resources to require their citizens to buy health insurance themselves or to subsidize insurance for all who cannot afford the price this book deals with financing voluntary and contributory

health insurance for resource poor and rural groups in India this book addresses three issues the first is how to catalyse demand for health insurance and develop insurance literacy among the largely illiterate and innumerate target population using training programs to build an enabling consensus allowing locals to create and administer such schemes the second involves the process of developing simplified methods for risk assessment which can help to underwrite risks price the micro health insurance schemes and ensure proper implementation the third issue is formulating a compelling business case which would make this health insurance affordable financially sustainable and operationally scalable this book develops insurance education and financial literacy for students of economics business administration insurance development studies and social work to prepare them for practical work as implementers policymakers or evaluators a supplementary section for teachers and students includes comprehension questions

construction for landscape architecture covers all aspects of landscape construction giving a good understanding of building materials and assembly it is heavily illustrated with specially commissioned detailed construction drawings and has a strong emphasis on sustainability and good practice at the end of the book there is an extensive glossary and an appendix of technical information
