the collapse of the habsburg monarchy in the aftermath of world war i marked a foundational shift in

the histories of austria and hungary previously part of the habsburg s austro hungarian empire this event stripped the two new states of a long established territorial order triggering a controversial redrawing of their borders whilst scholarship often focuses on the role played by state actors in vienna and budapest the disputed austro hungarian border refreshingly re examines this event through investigating how processes of state and nation building manifested within the contested region of western hungary and burgenland in doing so this book innovatively resituates this border region within the larger context of post habsburg historical development taking place across central europe

patriots without a homeland dissects an important underexplored theme in hungarian jewry modern orthodoxy this study clearly demonstrates that beginning from the late nineteenth century a strong modernizing trend developed within orthodoxy based on the adoption of hungarian national identity alongside the preservation of tradition modern orthodoxy was receptive to the hungarian language culture and religion however the attempt to integrate failed the book traces the journey of hungarian jews from emancipation to the holocaust and seeks to understand the reasons for the jews complete trust in hungarian integrity for instance why did they believe until the very last moment that the holocaust would not affect them how could they fail to notice the impending disaster this is the story of a community that felt rooted in the land and contributed greatly to its well being but was eventually rejected the story of patriots without a homeland

the national conservative government of hungary has been heavily criticised for its violation of eu values primarily the rule of law in recent years this book looks to the bigger picture in examining the rule of law debate between hungary and the eu it explores how certain elements of various hungarian constitutional reforms are interrelated and how the eu has failed to address the situation properly it is argued here that the reason the eu has been unable to enforce its values effectively in hungary stems from the misunderstanding that hungary kept the institutional design of liberal democracy but made it dysfunctional the debate with the eu is characterised as a dialogue of the deaf as the eu insists on advancing the rule of law agenda while the hungarian government defends itself by

alluding to its democratic legitimacy the author contends that the hungarian government is in fact playing a charade while the actions of the eu maintain this drama the book will be of interest to students academics and policymakers working in the areas of constitutional law and politics eu law and populism

a stolen sign no jews live here kept john lorinc s hungarian jewish family alive during the holocaust from pre war budapest to post war toronto journalist john lorinc unspools four generations of his hungarian jewish family s journey through the holocaust the 1956 revolution and finally exodus from a country that can t rid itself of its antisemitic demons this braided saga centers on the writer s eccentric and defiant grandmother a consummate survivor who with her love of flashy jewelry and her vicious tongue was best appreciated from afar lorinc also traces the stories of both his grandfathers and his father all of whom fell victim in different ways to the nazis genocidal campaign to rid europe of jews this is a deeply reported but profoundly human telling of a vile part of history told through lorinc s distinctively astute and compassionate consideration of how cities and cultures work set against the complicated and poorly understood background of hungary s jewish community no jews live here is about family stories and how the narratives of our lives are shaped by our times and historical forces over which we have no control john lorinc weaves hungarian history with the equally fascinating history of his own family to tell a deeply researched story with universal resonance how events enormous and seemingly tiny a genocidal war foggy skies conspire to create outcomes with life and death implications through generations marsha lederman author of kiss the red stairs the holocaust once removed

when the holocaust broke out in europe hansi and joel brand were joined by israel rezső kasztner to launch an organized effort to save thousands of human lives their efforts which involved playing a dangerous bluffing game against the nazi regime helped to end the auschwitz extermination their success put them at odds with the political machine of the young state of israel politicians wanted the public to believe that there was nothing they could do a sentiment which many still believe to

this day this cover up led to israel s first politically motivated homicide
