as the rate of homebirth increases in the uk this important new book offers a basic practical guide for anyone involved in the planning resourcing and facilitation of safe and respectful birth at home blending both contemporary academic and clinical practice this textbook covers the whole scope of home birth practice from antenatal care delivery and postnatal care as well as management of emergencies at home and practical advice for managing transfer facilitating a safe home birth requires a robust multidisciplinary team approach whatever your role in planning or attending a birth at home and whether you are a student practising midwife paramedic or obstetrician this resource will have something for you covers the whole scope of home birth practice for each member the multidisciplinary team written by leading experts from diverse backgrounds including midwives paramedics obstetricians and neonatal nurses from clinical

practice academia and education presents balanced and unbiased contemporary evidence supporting birth at home discusses effective care planning from developing a homebirth services practical resources and skills equipment planning and geographical considerations covers important topics within midwifery including the rise of freebirthing multidisciplinary team working and the care of women with complex biopsychosocial needs or from underrepresented communities clearly identifies roles and responsibilities of the multidisciplinary team suitable for midwifery students embarking on a home birth placement

john milbank s theology has shaped much modern political thinking both within and without the church in before and beyond the big society joseph forde presents the first study devoted exclusively to john milbank s theology of welfare and how it has influenced policy in the church of england since 2008 by examining the favourable response the church gave to the big society project in 2010 12 forde shows that milbank s blue socialist fingerprint increasingly dominates however this theology has not evolved in a vacuum and forde expertly places it in its historical and theoretical context he offers a detailed critical discussion of milbank s own critique of what has been the mainstream temple anglican theology of welfare in the church of england since the 1940s and a fresh contribution to the assessment of anglican social theology finally he demonstrates how milbank s ideas have been furthered by other influential anglicans it is this influence that will carry the greatest implications for the church of england s policy on welfare going forward making this study relevant to all who care about its contribution to the provision of welfare

since the third edition of grievé s modern manual therapy was published in 2005 the original concepts of manipulative therapy have grown to embrace new research generated knowledge expansions in practice have adopted new evidence which include consideration of psychological or social moderators the original manual therapy or manipulative therapy approaches have transformed into musculoskeletal physiotherapy and this is recognized by the change in title for the new edition grievé s modern musculoskeletal physiotherapy grievé s modern musculoskeletal physiotherapy continues to bring together the latest state of the art research from both clinical practice and the related basic sciences which is most relevant to practitioners the topics addressed and the contributing authors reflect the best and most clinically relevant contemporary work within the field of musculoskeletal physiotherapy with this as its foundation and a new six strong editorial team at its helm the fourth edition now expands its focus from the vertebral

column to the entire musculoskeletal system for the first time both the spine and extremities are covered capturing the key advances in science and practices relevant to musculoskeletal physiotherapy the book is divided into five parts containing multiple sections and chapters the first part looks at advances in the sciences underpinning musculoskeletal physiotherapy practice here there is commentary on topics such as movement the interaction between pain and motor control as well as neuromuscular adaptations to exercise applied anatomical structure is covered in addition to the challenges of lifestyle and ageing a new section highlights the important area of measurement and presents the scope of current and emerging measurements for investigating central and peripheral aspects relating to pain function and morphological change another section discusses some contemporary research approaches such as quantitative and qualitative methods as well as translational research part iii contains sections on the principles of and broader aspects of management which are applicable to musculoskeletal disorders of both the spine and periphery topics include models for management prescription communication and pain management and contemporary principles of management for the articular nervous and sensorimotor systems in recognition of the patient centred and inclusive nature of contemporary musculoskeletal practice there is also discussion about how physiotherapists may use cognitive behavioural therapies when treating people with chronic musculoskeletal disorders the final part of the book focuses on selected contemporary issues in clinical practice for a particular region condition or the most topical approaches to the diagnosis and management of a region a critical review of the evidence or developing evidence for approaches is given and areas for future work are highlighted presents state of the art manual therapy research from the last 10 years multidisciplinary authorship presents the viewpoints of different professions crucial to the ongoing back pain management debate highly illustrated and fully referenced

there are growing questions regarding the safety quality risk management and costs of pcc teams their training and preparedness and their implications on the welfare of patients and families this innovative book authored by an international authorship will highlight the best practices in improving survival while paving a roadmap for the expected changes in the next 10 years as healthcare undergoes major transformation and reform an invited group of experts in the field will participate in this project to provide the timeliest and informative approaches to how to deal with this global health challenge the book will be indispensable to all who treat pediatric cardiac disease and will provide important information about managing the risk of patients with pediatric and congenital cardiac disease in the three

domains of the analysis of outcomes the improvement of quality and the safety of patients

the goal of a high quality cost effective and accessible health care for patients is achieved through constructing a team based and patient centered health care delivery system the expanded role of pharmacists uplifts them to patient care from dispensing and manufacturing or marketing of drugs along with doctors and allied health professionals pharmacists are increasingly recognized as an integral part of the patient care team furthermore colleges of pharmacy need to revise and up date their curricula to accommodate the progressively increasing development in the pharmaceutical education and the evolving new roles of practicing pharmacists in patient care settings this book focuses on the expanded role of the pharmacists in total patient care including prescribing dispensing compounding administering and monitoring of drugs at home hospital community hospice critical care changeover and other care settings the sector is emerging in both developed and under developed countries overburdened by patient loads and the explosion of new drugs physicians turned to pharmacists more and more for drug information especially within institutional settings and today s patient care pharmacists are taking more interests in medication review and reconciliation patient education and counseling creating drug therapy regimen and monitoring compliance the purpose of this book is to guide the pharmacists in their daily interactions with patients and to ensure collaboration with other health professionals the contents are mostly based on recently published articles related to patient care with most recent ideas and activities followed by the patient care pharmacists around the globe however a pharmacist implements the care plan in collaboration with other health care professionals and the patient or caregiver along with professional guidelines the book discusses the concepts and best practices of patient interaction patient rights and ethical decision making for the professional pharmacist apprentice and student in every chapter the role of pharmacists in that chapter specific issues are detailed explicitly so that a professional pharmacist or a student can figure out his or her do s and don ts in that specific situation moreover further reading references are listed as future recommendations so the book is an archive of potential references too among so many books about patient care either doctors or nurses roles are highlighted the proposed book highlights the pharmacists roles and responsibilities to the most separated from those of doctors and nurses with the most recent information obtained from most publications in several journals books bulletins newsletter magazines etc

in this informed incisive and passionate commentary on the state of nature and conservation mark Avery reflects on our relationship with the wildlife around us from the cats that pass through his garden to the chronic decline of farmland wildlife from the pasqueflowers he visits every spring to the proportion of national income devoted to saving nature everything is connected and everything is considered this book analyses what is wrong with certain ways we do wildlife conservation but explores some of its many successes too how can we do better to restore wildlife to everybody's lives we know how to conserve species and habitats it's time to roll out conservation measures on a much bigger scale this is a societal choice in which every nature lover can play their part reflections sets out what is needed and what part the state environmental charities and we as individuals can play in making that happen this highly personal work from a life embedded in and dedicated to nature does not shy away from the harsh realities we face but its message ultimately is one of hope

handbook of novel psychoactive substances nps provides a comprehensive overview of the challenges that clinicians face when dealing with nps and discusses how the profile of patients and their socio demographic characteristics frame the serious public health concern that nps pose it presents various clinical cases as well as detailed accounts of symptoms psychopathology toxicity and overall clinical management that nps require this handbook brings together a unique collection of chapters written by leading experts in the field who have felt the need to share their knowledge and experience to improve the clinical practice on nps and the wellbeing of their patients

this book examines the theories and practice of how to control corporate behaviour through legal techniques the principal theories examined are deterrence economic rational acting responsive regulation and the findings of behavioural psychology leading examples of the various approaches are given in order to illustrate the models private enforcement of law through litigation in the usa public enforcement of competition law by the european commission and the recent reform of policies on public enforcement of regulatory law in the united kingdom noting that behavioural psychology has as yet had only limited application in legal and regulatory theory the book then analyses various european regulatory structures where behavioural techniques can be seen or could be applied sectors examined include financial services civil aviation pharmaceuticals and workplace health safety key findings are that enforcement has to focus on identifying the causes of non compliance so as to be able to support improved

performance rather than be based on fear motivating complete compliance systems in which reporting is essential for safety only function with a no blame culture the book concludes by proposing an holistic model for maximising compliance within large organisations combining public regulatory and criminal controls with internal corporate systems and external influences by stakeholders held together by a unified core of ethical principles hence the book proposes a new theory of ethical regulation this title is included in bloomsbury professional s international arbitration online service

mission zero is a landmark independent report into the delivery of the uk s commitment to net zero carbon dioxide emissions by 2050 chaired by chris skidmore the uk s former energy minister who was responsible for signing net zero into law its conclusions set out for the very first time a new economic narrative for climate policy demonstrating the vast financial opportunity that net zero can deliver this timely and crucial report acts as a template for how all countries can map out future challenges and opportunities and above all deliver their own pathway to net zero while also creating new jobs industries and investment for the future commissioned by the uk s prime minister in september 2022 mission zero is the largest engagement exercise on net zero conducted to date and has been widely recognised as the most informative and detailed document on the topic covering every sector and aspect of society this important book is a vital piece of work and an indispensable must read for anyone interested in energy climate and sustainability policy

vol 1 includes the transactions of the irish forestry society

for the past thirty years or so wetlands have been at the forefront of developments in understanding past cultural activity and associated landscapes waterlogged environments and contexts not only preserve the organic part of the cultural record but they also provide an archive of the environmental conditions pertaining at the time the deposits form thereby allowing the detailed reconstruction of their associated environments and landscapes
