over the past decade or so the wealth produced by qatar s oil and gas exports has generated a construction development boom in its capital city of doha and the surrounding vicinity since the late 1990s the number of inhabitants has grown from less than 400 000 to more than 1 7 million today in many respects doha is portrayed as an important emerging global capital in the gulf region which has been positioning and re inventing itself on the map of international architecture and urbanism with a global image of building clusters of glass office towers as well as cultural and educational facilities while focusing on the architectural and planning aspects of doha s intensive urbanization this first comprehensive examination of the city sets this within the socio political and economic context of the wider arabian peninsula demystifying doha on architecture and urbanism in an emerging city features a comprehensive discussion on contemporary architecture and urbanism of doha as an emerging regional metropolis it provides a

critical analysis of the evolution of architecture and urbanism as products of the contemporary global condition issues that pertain to emerging service hubs decentralised urban governance integrated urban development strategies image making practices urban identity the dialectic relations between the city and its society and sustainable urbanism are all examined to elucidate the urban evolution and the contemporary condition of doha demystifying doha on architecture and urbanism in an emerging city concludes by suggesting a framework for future studies of the city as well as for investigating the future of similar cities setting out an agenda for sustainable urban growth while invigorating the multiple roles urban planners and architects can play in shaping this future

principles of international energy transition law provides a succinct treatment of the legal principles that govern the transition to green energy the book positions energy transition in a broader energy context and outlines the interactions between different legal disciplines giving direction on how they can be reconciled

the establishment of a middle east zone free of nuclear weapons a concept more recently broadened to cover all weapons of mass destruction wmd has been before the international community for decades in this book two experts from the region explore why the matter remains unresolved and outline a comprehensive yet achievable roadmap to a middle east free of wmd weapons of mass destruction pose an existential threat to global peace and security but nowhere is it more urgent to stem their spread than in the middle east a region fraught with mistrust and instability accounting for these geopolitical realities including the ongoing talks to curb iran s nuclear program the authors present a practical and innovative strategy to a middle east free of weapons of mass destructions wmd they outline a phased approach toward disarmament in the region prescribing confidence building measures and verification tools to create trust among the region s governments their vision also sees the realization of a wmd free zone within a broader regional agenda for security and cooperation to advance socioeconomic and political progress this book will be of great interest to students and scholars of international relations politics and security studies in the middle east

war has been an ever present feature of human existence the analysis of wars has tended to focus on either their causes or the military and strategic consequences of a conflict this book argues that war can have a much wider impact across layers of society that go beyond international boundaries it presents a heuristic multi disciplinary framework for analysing the ripple and backwash effects across five connected analytical layers around the world material human capabilities economic values belief and attitudes policy and governance and power through this framework the book introduces a set of empirically rich and theoretically informed studies which examine the first consequences of the war in ukraine following the invasion of russia in february 2022 this multi disciplinary approach shows that the effects of the war were much deeper and sustained this volume will be of interest to students and scholars of international humanitarian law security studies peace and conflict studies and european history the chapters in this book were originally published as a special issue of policy studies

a fortnightly bulletin on financial and political trends

in times of crisis whether due to disasters armed conflicts or other health emergencies the timely and well coordinated evacuation of patients is a critical component of emergency response past emergencies have demonstrated the urgent need for standardized approaches to both pre hospital support for medical evacuation medevac and medevac operations themselves the absence of clear protocols coupled with delays miscommunication and inadequate care during transit can severely impact patient outcomes establishing standardized procedures ensures that medical evacuations are conducted safely efficiently and in coordination with the broader health care and emergency response system this guidance aims to provide a comprehensive framework for the safe and context adapted coordination clinical care operations support and logistics relevant to governments national authorities including ministries of health civil protection and civil defence national and international emergency medical teams emts nongovernmental organizations ngos emergency medical services ems and other key stakeholders operating in the medevac space or wishing to build this kind of capacity it defines minimum standards and recommendations for the development and classification of respective specialized care teams scts this is particularly relevant for contexts without pre existing or functional prehospital or medevac systems and can support country level capacity building regional and sub regional planning and the development of scts

environmental law in arab states offers a comprehensive and authoritative account of the guiding principles and rules relating to environmental protection in the arab region taking an international and comparative approach the book introduces readers to the latest developments of environmental law across the arab region through applicable legislation green finance and climate technologies the impact of these is assessed in each of the major areas of environmental regulation air pollution water pollution biodiversity conservation of nature and cultural heritage infrastructure development and islamic ecology consideration is given to participatory and bottom up legal strategies focusing on transparency accountability gender justice and other human rights safeguards that are needed to achieve greater coherence and coordination in the implementation and enforcement of environmental regulation across the region the book closes by providing legal assessments and reflections on how arab countries can through clear and comprehensive legislation advance existing national strategies and visions on trade and investment green growth islamic green finance circular economy blue economy and low carbon future amongst others

the arab world has played a very important role in the history of urbanization it is the region where urban civilization was born and where urban matters have been addressed for centuries the arab urban civilization as it has evolved over the past millennium has generated some of the most beautiful cities in the world this publication is the first ever to comprehensively analyze urbanization processes in the arab states through the review of its four sub regions the maghreb the mashreq the gulf cooperation council countries and the least developed arab countries of the southern tier
