uruguayan legislation through law 15 939 the forestry law and its regulations defines native forest as vegetative  
 associations in which trees of any size predominate whether exploited or not and are capable of producing timber or other  
 forest products influencing soil conservation hydro logical regimes or climate or providing shelter or other benefits of  
 national interest additionally under its regulations decree 452 988 establishes that forests are considered tree formations  
 with a minimum area of 2 500 m<sup>2</sup> furthermore the general directorate of forestry dgf in the native forest registration  
 guidelines specifies that there must be at least 200 trees per hectare and a minimum coverage of 50

achieving integral health is a challenge that necessitates a diversified approach from different disciplines to achieve a  
 coordinated impact on people s health food and nutrition form an essential part of this approach this new book explores  
 some important advances in the role of nutrition in integral health and quality of life laying special emphasis on the  
 challenges that humans face in this era of sedentary lifestyles diseases associated with food consumption and social  
 economic environmental and cultural crises the volume discusses interdisciplinary approaches to nutrition focusing on  
 nutrition for children the impact of nutrition on chronic noncommunicable diseases and gastrointestinal disorders the  
 nutritional profile of fermented foods and their health benefits microstructured particles as bioactive compound carriers  
 and more the book also offers an analysis of obesity and its dimensions covering childhood obesity risks and challenges at

home and at school quality of life in adult patients with diabetes the role of genetics and epigenetics in obesity and more the impact of nutrition on oral and dental health is also addressed in the book

this book examines the interplay between cooperation on technical barriers to trade tbt in free trade agreements and the multilateral framework of the world trade organization in recent years tbt especially differences in standards have attracted increased interest and have been addressed as part of the wto negotiated agenda in trade agreements because of a number of political and legal constraints the process of further cooperation at the wto have been stalled which made free trade agreements a central pillar in setting the agenda of international trade governance this leads us to rethinking the interrelation between the wto and free trade agreements and to questioning the role of both fora in the future of trade the book examines some tbt provisions in free trade agreements and highlights their positive and problematic aspects when it comes to the wto consistency and the ideas of open and inclusive trade it also suggests that a more optimal way forward would be to increase parallel work on tbt cooperation at the wto a more inclusive forum that could address issues of global significance such as environmental protection and regulation of digital goods the book explores the potential for trade agreements to advance the wto agenda but notes that the organization would need to adapt its institutional structure and governance in order to do so drawing on the example of the eu and us so called new generation trade agreements the book provides a detailed analysis of the various methods used to navigate tbt cooperation and offers insight into how these agreements can serve as inspiration for future multilateral disciplines this book is a valuable resource for trade law academics policymakers and anyone interested in the intersection of technical barriers to trade regional trade agreements and the wto
